A supplement of 50 more discrepant events over the Second Edition of "INVITATIONS TO SCIENCE INQUIRY," & 100 more discrepant events which is the difference between the First & Second Edition. To each of the chapters of the First & Second Editions more discrepant events have been added.

The National Institutes of Health Publication 09-4016, "Your Guide to Diabetes: Type 1 and Type 2," addresses diabetes and how you can learn how to take care of your diabetes and how to prevent some of the serious problems that diabetes can cause. You may want to share this booklet with your family and friends so they too will understand more about diabetes and how they can help you live a healthy life. And remember, you can always ask your health care team any questions you might have. Diabetes means your blood glucose, also called blood sugar, is too high. Your blood always has some glucose in it because your body needs glucose for energy to keep you going. But too much glucose in the blood isn't good for your health. Glucose comes from the food you eat and is also made in your liver and muscles. Your blood carries the glucose to all the cells in your body. Insulin is a chemical, also called a hormone, made by the pancreas. The pancreas releases insulin into the blood. Insulin helps the glucose from food get into your cells. If your body doesn't make enough insulin, or if the insulin doesn't work the way it should, glucose can't get into your cells. It stays in your blood instead. Your blood glucose level then gets too high, causing prediabetes or diabetes. This book will help you to learn the things you can do each day and during each year to stay healthy and prevent diabetes problems. Collins International GCSE Biology provides complete coverage of the new Edexcel International GCSE specification for Biology and is packed full of questions, in depth content, practical investigative skills features and more.

"An archaeological mystery, the story of young American Bruce Brandon, eager to ascertain more about the graves of Egyptian gods, is set against a clearly focused background of the Land of the Pyramids. Bruce is determined to find mummified crocodiles, which he believes were spirited away by reactionary priests during the reign of the ruler Akhenaten, who tried to introduce monotheism into Egypt." --Preface.

This clear and stimulating text has been revised to match the latest IGCSE syllabus exactly and provides all aspects of the IGCSE course in a single text. Straightforward language makes it accessible to students of all abilities. Each chapter contains a

Prepare for GCSE science with complete coverage of the new AQA GCSE science specification for biology unit two, chemistry unit two, and physics unit two, divided into sections to allow easy preparation for unit five and unit six.

GCSE History OCR B: Modern World History Revision Guide

Young readers will love to feel the different textures and hear the truck sounds in this interactive, sturdy board book designed for children ages 3 and up. Includes an on/off switch on the back cover to extend battery life. Touch, feel, and hear the trucks on every page of this sturdy board book. Engaging photographs and appealing textures encourage young readers to explore the exciting world of trucks. Press the touch-and-feels to hear five realistic truck sounds, with a button on the last page to play all five sounds again!

Demonstrates the gross anatomy of the digestive system and discusses the physiology of the system. Following the path of digestion, the gross anatomy of each of the regions is shown on the cadaver, along with a description of the histology of the walls of each region.

A concise guide to using a heart monitor for optimal running, cycling, or triathlon performance.

Journey through a small suburban town and view a special friendship through the eyes of a marble. If you've ever played with marbles, you know how beautiful they can be. There are several different types of marbles, big and small, different colors, alternate designs. And then, there is Aggie, a very special marble. This tale is told from an unusual perspective. Follow a story of adventure, friendship, caring, giving and sacrifice. But most of all, the book details a colorful journey that will enhance the imagination of young readers. This booklet also includes a brief description of the game of marbles. It details what materials are needed and how to set the game up for initial play. The rules of marbles are listed in an easy to understand format. So, why not play one of the oldest and most treasured games right now? This short picture book is targeted at younger children, but the game itself applies to all ages that are able to use marbles, although this may depend upon your own child's progress. The story was developed to learn about friendship, giving, sharing, and acceptance by traveling through the virtual eyes of a marble. The sentences in this book are relatively easy to read, with

photographs to help understand the story.

Powered by MyMaths the book links directly to the ever popular web site offering students a further source of appropriate support.

When she agrees to take on one of the abused horses just rescued by the local SPCA, a new chapter opens in Susan Richards's difficult life. She lost her mother at the age of five and was raised by uncaring relatives; she married unhappily and divorced; and she'd been an alcoholic. Now, at the age of forty-three, she lives with three horses who keep her company: the diva-like Georgia, boyish Tempo and hopelessly romantic Hotshot. While trying to capture another horse assigned to her, Lay Me Down, a skeletal mare, walks into Susan's horse trailer of her own volition. When Susan agrees to take her, she begins to forge a special, healing relationship that alters her life. Poignant and evocative, this is a book for anyone who has ever loved a horse, and for everyone who has ever lost a loved one.

Renowned for her effective learning systems, respected author Sylvia Mader has helped thousands of entry-level students understand and enjoy the principles of human anatomy and physiology.
