Since the craft beer and homebrewing boom of the late twentieth and early twenty-first centuries, beer lovers have enjoyed drinking and brewing a vast array of beer styles. However, most are brewed to accentuate a single ingredient--hops--and few contain the myriad herbs and spices that were standard in beer and gruit recipes from medieval times back to ancient people's discovery that

grain could be malted and fermented into beer. Like his first book, *Make Mead Like a Viking*, Jereme Zimmerman's *Brew Beer Like a Yeti* returns to ancient practices and ingredients and brings storytelling, mysticism, and folklore back to the brewing process, including a broad range of ales, gruits, bragots, and other styles that have undeservingly taken a backseat to the IPA. Recipes inspired by traditions around the globe include sahti, gotlandsdricka, oak bark and mushroom ale, wassail, pawpaw wheat, chicha de muko, and even Neolithic "stone" beers. More importantly, under the guidance of "the world's only peace-loving, green-living Appalachian Yeti Viking," readers will learn about the many ways to go beyond the pale ale, utilizing alternatives to standard grains, hops, and commercial yeasts to defy the strictures of style and design their own brews.

light, bland and cheap beers, John Hall and his son Greg brought European flavors to America. With distribution in two dozen states, two brewpubs and status as one of the 20 biggest breweries in the United States, Goose Island became an American success story and was a champion of craft beer. Then, on March 28, 2011, the Halls sold the brewery to Anheuser-Busch InBev, maker of Budweiser, the least craft-like beer imaginable. The sale forced the industry to reckon with craft beer's mainstream appeal and a popularity few envisioned. Josh Noel broke the news of the sale in the Chicago Tribune, and he covered the resulting backlash from Chicagoans and beer fanatics across the country as the discussion escalated into an intellectual craft beer war. Anheuser-Busch has since bought nine other craft breweries, and from among the outcry rises a question that Noel addresses through personal anecdotes from industry leaders: how should a brewery grow?

involves beer in some way - beer pizza anyone? And of course there is a selection of beer snacks that you can enjoy with a well-earned pint in your hand. Winner of 2014 U.S. Gourmand Drinks Award • Taste 5,000 years of brewing history as a time-traveling homebrewer rediscovers and re-creates the great beers of the past. The Brewer's Tale is a beer-filled journey into the past: the story of brewers gone by and one brave writer's quest to bring them—and their ancient, forgotten beers—back to life, one taste at a time. This is the story of the world according to beer, a toast to flavors born of necessity and place—in Belgian monasteries, rundown farmhouses, and the basement nanobrewery next door. So pull up a barstool and raise a glass to 5,000 years of fermented magic. Fueled by date-and-honey gruel, sour pediococcus-laced lambics, and all manner of beers between, William Bostwick's rollicking quest for the drink's origins takes him into the redwood forests of Sonoma County, to bullet-riddled South Boston brewpubs, and across the Atlantic, from Mesopotamian sands to medieval monasteries to British brewing factories. Bostwick compares notes with the Mt. Vernon historian in charge of preserving George Washington's molasses-based home brew, and he finds the ancestor of today's macrobrewed lagers in a nineteenth-century spy's hollowed-out walking stick. Wrapped around this modern reportage are deeply informed tales of history's archetypal brewers: Babylonian temple workers, Nordic shamans, patriots, rebels, and monks. The Brewer's Tale unfurls from the ancient goddess Ninkasi, ruler of intoxication, to the cryptic beer hymns of the Rig Veda

and down into the clove-scented treasure holds of India-bound sailing ships. With each discovery comes Bostwick's own turn at the brew pot, an exercise that honors the audacity and experimentation of the craft. A sticky English porter, a pricelessly rare Belgian, and a sacred, shamanic wormwood-tinged gruit each offer humble communion with the brewers of yore. From sickly sweet Nordic grogs to industrially fine-tuned fizzy lager, Bostwick's journey into brewing history ultimately arrives at the head of the modern craft beer movement and gazes eagerly if a bit blurry-eyed toward the future of beer.

Why do hops give off the flavor and aroma that they do? "Because" is not the answer. They vary in Alpha Acids, Beta Acids, Myrcene and a host of other oils and acids. Where they are grown even matters. This book covers over 110 individual hops and breaks them down piece-by-piece so you can properly craft your next homebrew. It also gives you information on what to expect regarding flavor and aroma. The Author owns a brewpub and was constantly getting asked about the hops in his beer and how he got it to taste like that. After months of leafing through sales brochures, researching hop farmers, and experimenting himself, he puts all of that "hopped up" knowledge into one source - in an easy to access manner specifically for the homebrewer in all of us. A guide to enjoying vintage beers explains how to plan and set up a beer cellar, what to look for when tasting aged beers, and the science behind the aging process.

Beer in the United States has always been bound up with race, racism, and the construction of white institutions and identities. Given the very quick rise of craft beer, as well as the myopic scholarly focus on economic and historical trends in the field, there is an urgent need to take stock of the intersectional inequalities that such realities gloss over. This unique book carves a much-needed critical and interdisciplinary path to examine and understand the racial dynamics in the

What do you get when you cross a journalist and a banker? A brewery, of course. "A great city should have great beer. New York finally has, thanks to Brooklyn. Steve Hindy and Tom Potter provided it. Beer School explains how they did it: their mistakes as well as their triumphs. Steve writes with a journalist's skepticism—as though he has forgotten that he is reporting on himself. Tom is even less forgiving—he's a banker, after all. The inside story reads at times like a cautionary tale, but it is an account of a great and welcome achievement." —Michael Jackson, *The Beer Hunter*(r) "An accessible and insightful case study with terrific insight for aspiring entrepreneurs. And if that's not enough, it is all about beer!" —Professor Murray Low, Executive Director, Lang Center for Entrepreneurship, Columbia Business School "Great lessons on what every first-time entrepreneur will experience. Being down the block from the Brooklyn Brewery, I had firsthand witness to their positive impact on our community. I give Steve and Tom's book an A++!" —Norm Brodsky, Senior Contributing Editor, Inc. magazine "Beer School is a useful and entertaining book. In essence, this is the story of starting a beer business from scratch in New York City. The product is one readers can relate to, and the market is as tough as they get. What a fun challenge! The book can help not only those entrepreneurs who are starting a business but also those trying to

grow one once it is established. Steve and Tom write with enthusiasm and insight about building their business. It is clear that they learned a lot along the way. Readers can learn from these lessons too." —Michael Preston, Adjunct Professor, Lang Center for Entrepreneurship, Columbia Business School, and coauthor, *The Road to Success: How to Manage Growth* "Although we (thankfully!) never had to deal with the Mob, being held up at gunpoint, or having our beer and equipment ripped off, we definitely identified with the challenges faced in those early days of cobbling a brewery together. The revealing story Steve and Tom tell about two partners entering a business out of passion, in an industry they knew little about, being seriously undercapitalized, with an overly naive business plan, and their ultimate success, is an inspiring tale." —Ken Grossman, founder, Sierra Nevada Brewing Co.
