A brave, urgent, and roaring response to silence.

During the 1970s, grassroots women activists in and outside of prisons forged a radical politics against gender violence and incarceration. Emily L. Thuma traces the making of this anticarceral feminism at the intersections of struggles for racial and economic justice, prisoners' and psychiatric patients' rights, and gender and sexual liberation. *All Our Trials* explores the organizing, ideas, and influence of those who placed criminalized and marginalized women at the heart of their antiviolence mobilizations. This activism confronted a "tough on crime" political agenda and clashed with the mainstream women's movement's strategy of resorting to the criminal legal system as a solution to sexual and domestic violence. Drawing on extensive archival research and first-person narratives, Thuma weaves together the stories of mass defense campaigns, prisoner uprisings, broad-based local coalitions, national gatherings, and radical print cultures that cut through prison walls. In the process, she illuminates a crucial chapter in an unfinished struggle—one that continues in today's movements against mass incarceration and in support of transformative justice.

One of the hallmark features of the post-civil rights United States is the reign of colorblindness over national conversations about race and law. But how, precisely, should we understand this notion of colorblindness in the face of enduring racial hierarchy in American society? In *Letters of the Law*, Sora Y. Han argues that colorblindness is a foundational fantasy of law that not only informs individual and collective ideas of race, but also structures the imaginative capacities of American legal interpretation. Han develops a critique of colorblindness by deconstructing the law's central doctrines on due process, citizenship, equality, punishment and individual liberty, in order to expose how racial slavery and the ongoing struggle for abolition continue to haunt the law's reliance on the fantasy of colorblindness. *Letters of the Law* provides highly original readings of iconic Supreme Court cases on racial inequality—spanning Japanese internment to affirmative action, policing to prisoner rights, Jim Crow segregation to sexual freedom. Han's analysis provides readers with new perspectives on many urgent social issues of our time, including mass incarceration, educational segregation, state intrusions on privacy, and neoliberal investments in citizenship. But more importantly, Han compels readers to reconsider how the diverse legacies of civil rights reform archived in American law might be rewritten as a heterogeneous practice of black freedom struggle.

Over seven million people live under the control of US prison and parole systems. The vast majority of them are people of colour or youth. Between 2000 and 2007, Congress added 454 new offences to the criminal code. In comparison, Blair added 3000 new laws during his leadership. The UK prison population is similarly skewed in terms of race and class. For

a decade, Critical Resistance has organized to abolish the reliance on imprisonment, policing and surveillance. Reflecting on key themes of Dismantle, Change and Build, this book celebrates their bold strategies and work.

On June 16, 2016, the Roundtable on Population Health Improvement held a workshop at the Lutheran Church of the Good Shepherd in Brooklyn, New York, to explore the influence of trauma and violence on communities. The workshop highlighted examples of community-based organizations using trauma-informed approaches to treat violence and build safe and healthy communities. Presentations showcased examples that can serve as models in different sectors and communities and shared lessons learned. This publication summarizes the presentation and discussion of the event. A writer analyzes the diverse ways in which race shapes--and occasionally shatters--girls' lives, from the perspectives of women of all ethnic backgrounds, looking at such issues as racial injustice, racial awareness, family relationships, and more. Original.

Controversial and forward-thinking, this volume presents a much-needed analysis of restorative justice practices in cases of violence against women. Advocates, community activists, and scholars will find the theoretical perspectives and vivid case descriptions presented here to be invaluable tools for creating new ways for abused women to find justice.

Discusses the obstacles women have had to overcome in order to become writers, and identifies the sexist rationalizations used to trivialize their contributions

Despite the current survivor-affirming awareness around sexual violence, child sexual abuse, most notably when it's a family member or friend, is still a very taboo topic. There are approximately 42 million child sexual abuse survivors in the U.S. and millions of bystanders who look the other way as the abuse occurs and cover for the harm-doers with no accountability. Documentary filmmaker and survivor of child sexual abuse and adult rape, Aishah Shahidah Simmons invites diasporic Black people to join her in transformative storytelling that envisions a world that ends child sexual abuse without relying on the criminal justice system. *Love WITH Accountability* features compelling writings by child sexual abuse survivors, advocates, and Simmons's mother, who underscores the detrimental impact of parents/caregivers not believing their children when they disclose their sexual abuse. This collection explores disrupting the inhumane epidemic of child sexual abuse, humanely.

Women's rights advocates in the United States have long argued that violence against women denies women equality and citizenship, but it took a movement of feminist activists and lawyers, beginning in the late 1960s, to set about realizing this vision and transforming domestic violence from a private problem into a public harm. This important book examines the pathbreaking legal process that has brought the pervasiveness and severity of domestic violence to public attention and has led the United States Congress, the Supreme Court, and the United Nations to address the problem. Elizabeth Schneider has played a

pioneering role in this process. From an insider's perspective she explores how claims of rights for battered women have emerged from feminist activism, and she assesses the possibilities and limitations of feminist legal advocacy to improve battered women's lives and transform law and culture. The book chronicles the struggle to incorporate feminist arguments into law, particularly in cases of battered women who kill their assailants and battered women who are mothers. With a broad perspective on feminist lawmaking as a vehicle of social change, Schneider examines subjects as wide-ranging as criminal prosecution of batterers, the civil rights remedy of the Violence Against Women Act of 1994, the O. J. Simpson trials, and a class on battered women and the law that she taught at Harvard Law School. Feminist lawmaking on woman abuse, Schneider argues, should reaffirm the historic vision of violence and gender equality that originally animated activist and legal work.

In this collection, Arab and Arab American feminists enlist their intimate experiences to challenge simplistic and long-held assumptions about gender, sexuality, and commitments to feminism and justice-centered struggles. Contributors hail from multiple geographical sites, spiritualities, occupations, sexualities, class backgrounds, and generations. Poets, creative writers, artists, scholars, and activists employ a mix of genres to express feminist issues and highlight how Arab and Arab American feminist perspectives simultaneously inhabit multiple, overlapping, and intersecting spaces: within families and communities; in anticolonial and antiracist struggles; in debates over spirituality and the divine; within radical, feminist, and queer spaces; in academia and on the street; and between each other. Contributors explore themes as diverse as the intersections between gender, sexuality, Orientalism, racism, Islamophobia, and Zionism, and the restoration of Arab Jews to Arab American histories. This book asks how members of diasporic communities navigate their sense of belonging when the country in which they live wages wars in the lands of their ancestors. Arab and Arab American Feminisms opens up new possibilities for placing grounded Arab and Arab American feminist perspectives at the center of gender studies, Middle East studies, American studies, and ethnic studies.

Traces the author's experiences of growing up with a white father who believed himself to be African-American, describing how his efforts to indoctrinate his daughter into black culture caused her to be rejected by her black and white peers.

From an award-winning scholar, a vibrant portrait of a pivotal moment in the history of the feminist movement From the declaration of the "Year of the Woman" to the televising of Anita Hill's testimony, from Bitch magazine to SisterSong's demands for reproductive justice: the 90s saw the birth of some of the most lasting aspects of contemporary feminism. Historian Lisa Levenstein tracks this time of intense and international coalition building, one that centered on the growing influence of lesbians, women of color, and activists from the global South. Their work laid the foundation for the feminist energy seen in today's movements, including the 2017 Women's March and #MeToo campaigns. A revisionist history of the origins of contemporary feminism, They Didn't See Us Coming shows how women on the margins built a movement at the dawn of the Digital Age.

Professors and students alike are taking interest in Girls' Studies--the socialization of girls versus boys--and beginning to analyze the impact of media, pop culture, messaging, and more on America's girls. Girls' Studies tackles socialization and gender expectations, body image, and media impact, and gives insight into girl empowerment and how to equip our girls for a brighter future.

Undivided Rights captures the evolving and largely unknown activist history of women of color organizing for reproductive justice—on their own behalf. Undivided Rights presents a textured understanding of the reproductive rights movement by placing the experiences, priorities, and activism of women of color in the foreground. Using historical research, original organizational case studies, and personal interviews, the authors illuminate how women of color have led the fight to control their own bodies and reproductive destinies. Undivided Rights shows how women of color—starting within their own Latina, African American, Native American, and Asian American communities—have resisted coercion of their reproductive abilities. Projected against the backdrop of the mainstream pro-choice movement and radical right agendas, these dynamic case studies feature the groundbreaking work being done by health and reproductive rights organizations led by women-of-color. The book details how and why these women have defined and implemented expansive reproductive health agendas that reject legalistic remedies and seek instead to address the wider needs of their communities. It stresses the urgency for innovative strategies that push beyond the traditional base and goals of the mainstream pro-choice movement—strategies that are broadly inclusive while being specific, strategies that speak to all women by speaking to each woman. While the authors raise tough questions about inclusion, identity politics, and the future of women's organizing, they also offer a way out of the limiting focus on "choice." Undivided Rights articulates a holistic vision for reproductive freedom. It refuses to allow our human rights to be divvied up and parceled out into isolated boxes that people are then forced to pick and choose among.

'Funny, kind, generous and smart - I could have done with the wisdom of Flo Perry far sooner' Dolly Alderton We talk about feminism in the workplace and we talk about dating after #MeToo, but women's own patriarchal conditioning can be the hardest enemy to defeat. When it comes to our sex lives, few of us are free of niggling fears and body image insecurities. Rather than enjoying and exploring our bodies uninhibited, we worry about our bikini lines, bulging tummies and whether we're doing it 'right'. Flo broaches everything from faking it to consent, stress to kink, and how losing your virginity isn't so different to eating your first chocolate croissant. Her mission is to get more people talking openly about what they do and don't want from every romantic encounter.

A trillion-dollar industry, the US non-profit sector is one of the world's largest economies. From art museums and university hospitals to think tanks and church charities, over 1.5 million organizations of staggering diversity share the tax-exempt 501(c)(3) designation, if little else. Many social justice organizations have joined this world, often blunting political goals to satisfy government and foundation mandates. But even as funding shrinks, many activists often find it difficult to imagine movement-building outside the non-profit model. The Revolution Will Not Be Funded gathers essays by radical

activists, educators, and non-profit staff from around the globe who critically rethink the long-term consequences of what they call the "non-profit industrial complex." Drawing on their own experiences, the contributors track the history of non-profits and provide strategies to transform and work outside them. Urgent and visionary, *The Revolution Will Not Be Funded* presents a biting critique of the quietly devastating role the non-profit industrial complex plays in managing dissent. In an Abusive State puts forth a powerful argument: that the feminist campaign to stop sexual violence has entered into a problematic alliance with the neoliberal state. Kristin Bumiller chronicles the evolution of this alliance by examining the history of the anti-violence campaign, the production of cultural images about sexual violence, professional discourses on intimate violence, and the everyday lives of battered women. She also scrutinizes the rhetoric of high-profile rape trials and the expansion of feminist concerns about sexual violence into the international human-rights arena. In the process, Bumiller reveals how the feminist fight against sexual violence has been shaped over recent decades by dramatic shifts in welfare policies, incarceration rates, and the surveillance role of social-service bureaucracies. Drawing on archival research, individual case studies, testimonies of rape victims, and interviews with battered women, Bumiller raises fundamental concerns about the construction of sexual violence as a social problem. She describes how placing the issue of sexual violence on the public agenda has polarized gender- and race-based interests. She contends that as the social welfare state has intensified regulation and control, the availability of services for battered women and rape victims has become increasingly linked to their status as victims and their ability to recognize their problems in medical and psychological terms. Bumiller suggests that to counteract these tendencies, sexual violence should primarily be addressed in the context of communities and in terms of its links to social disadvantage. *In an Abusive State* is an impassioned call for feminists to reflect on how the co-optation of their movement by the neoliberal state creates the potential to inadvertently harm impoverished women and support punitive and racially based crime control efforts. In this landmark work, four of the world's leading scholar-activists set out a vital, urgent manifesto for a truly intersectional, internationalist, abolitionist feminism. A powerful work from four activist scholars on the need for our thinking on abolitionism and feminism to intersect. As a politics and as a practice, abolitionism has increasingly shaped our political moment. Abolitionism and feminism stand shoulder-to-shoulder in fighting a common cause- the end of the

carceral state, with its key role in perpetuating violence, both public and private, in prisons, in police forces, and in people's homes. Abolitionist theories and practices are at their most compelling when they are feminist; and a feminism that is also abolitionist is the most inclusive and persuasive version of feminism for these times.

Revised and Expanded Edition Wait—what's wrong with rights? It is usually assumed that trans and gender nonconforming people should follow the civil rights and "equality" strategies of lesbian and gay rights organizations by agitating for legal reforms that would ostensibly guarantee nondiscrimination and equal protection under the law. This approach assumes that the best way to address the poverty and criminalization that plague trans populations is to gain legal recognition and inclusion in the state's institutions. But is this strategy effective? In *Normal Life* Dean Spade presents revelatory critiques of the legal equality framework for social change, and points to examples of transformative grassroots trans activism that is raising demands that go beyond traditional civil rights reforms. Spade explodes assumptions about what legal rights can do for marginalized populations, and describes transformative resistance processes and formations that address the root causes of harm and violence. In the new afterword to this revised and expanded edition, Spade notes the rapid mainstreaming of trans politics and finds that his predictions that gaining legal recognition will fail to benefit trans populations are coming to fruition. Spade examines recent efforts by the Obama administration and trans equality advocates to "pinkwash" state violence by articulating the US military and prison systems as sites for trans inclusion reforms. In the context of recent increased mainstream visibility of trans people and trans politics, Spade continues to advocate for the dismantling of systems of state violence that shorten the lives of trans people. Now more than ever, *Normal Life* is an urgent call for justice and trans liberation, and the radical transformations it will require.

Global Lockdown is the first book to apply a transnational feminist framework to the study of criminalization and imprisonment. The distinguished contributors to this collection offer a variety of perspectives, from former prisoners to advocates to scholars from around the world. The book is a must-read for anyone concerned by mass incarceration and the growth of the prison-industrial complex within and beyond U.S. borders, as well as those interested in globalization and resistance.

"A passionate, incisive critique of the many ways in which women and girls of color are systematically erased or marginalized in discussions of police violence." —Michelle Alexander, author of *The New Jim Crow* *Invisible No More* is a timely examination of how Black women, Indigenous women, and women of color experience racial profiling, police brutality, and immigration enforcement. By placing the individual stories of Sandra Bland, Rekia Boyd, Dajerria Becton, Monica Jones, and Mya Hall in the broader context of the twin epidemics of police violence and mass incarceration,

Andrea Ritchie documents the evolution of movements centered around women's experiences of policing. Featuring a powerful forward by activist Angela Davis, *Invisible No More* is an essential exposé on police violence against WOC that demands a radical rethinking of our visions of safety—and the means we devote to achieving it.

"Nimo's War, Emma's War is unique in examining the gendered dimension of the Iraq war, particularly its impact on ordinary Iraqi and American women, thereby revealing an important long-term cost of the conflict. Cynthia Enloe's approach and analysis are extremely original and innovative."--Nadje Al-Ali, author of *What Kind of Liberation?: Women and the Occupation of Iraq* "Nimo's War, Emma's War is Cynthia Enloe's darkest and most strikingly conceived text to date. War is not 'in' Iraq and Afghanistan, where foreign militaries confront local people, rather it is everywhere, most particularly in 'peacetime' domestic spaces, 'civilian' employment, marital bedrooms and high schools."--Terrell Carver, author of *Politics, Language and Metaphor* "Cynthia Enloe has pioneered the subject of women, militarism, and war in a series of revelatory books, including *Bananas, Beaches, and Bases*, *The Morning After: Sexual Politics at the End of the Cold War*, and *Maneuvers: The International Politics of Militarizing Women's Lives*. *Nimo's War, Emma's War* is her best one yet."--Chalmers Johnson, author of *The Blowback Trilogy* "Brilliantly researched, vividly written, Cynthia Enloe has gifted us with a new and different story of modern warfare. Entirely gripping and profoundly humane, every page raises new issues. To factor in Nimo and Emma--all the women and families touched by the carnage and agony of war, is to see the bitter range of tragedy community by community. To read this book is to ask: What are we doing to our children--all our children, combatants and civilians? How do women cope with post-war wounds and violence--agony, wreckage, displacement? Cynthia Enloe's book is essential reading for all students and journalists, public citizens and peace activists, who seek women's dignity, healthy societies, humane alternatives to the insanity of careless military destruction."--Blanche Wiesen Cook, author of *The Declassified Eisenhower, Eleanor Roosevelt* (vols I & II, III forthcoming)

The editors and contributors to *Color of Violence* ask: What would it take to end violence against women of color? Presenting the fierce and vital writing of organizers, lawyers, scholars, poets, and policy makers, *Color of Violence* radically repositions the antiviolence movement by putting women of color at its center. The contributors shift the focus from domestic violence and sexual assault and map innovative strategies of movement building and resistance used by women of color around the world. The volume's thirty pieces—which include poems, short essays, position papers, letters, and personal reflections—cover violence against women of color in its myriad forms, manifestations, and settings, while identifying the links between gender, militarism, reproductive and economic violence, prisons and policing, colonialism, and war. At a time of heightened state surveillance and repression of people of color, *Color of Violence* is an essential

"This is a thoughtful and scholarly addition to the unfortunately scarce literature on domestic violence and oppression in all its forms."--Jacquelyn C. Campbell, Anna D. Wolf Chair, Johns Hopkins University School of Nursing "An exciting and powerful collection that eloquently critiques some of the current thinking in domestic violence and raises key concerns for advocates and scholars working in the area."--Sujata Warriar, president, board of directors, Manavi: An organization for South Asian women "Sokoloff has assembled an impressive array of authors who challenge us to 'think outside of our contemporary domestic violence box.'"--Angela M. Moore Parmley, chief, violence and victimization research division, National Institute of Justice This groundbreaking anthology reorients the field of domestic violence research by bringing long-overdue attention to the structural forms of oppression in communities marginalized by race, ethnicity, religion, sexuality, or social class. Reprints of the most influential recent work in the field as well as more than a dozen newly commissioned essays explore theoretical issues, current research, service provision, and activism among Latinos, African Americans, Asian Americans, Jewish Americans, and lesbians. The volume rejects simplistic analyses of the role of culture in domestic violence by elucidating the support systems available to battered women within different cultures, while at the same time addressing the distinct problems generated by that culture. Together, the essays pose a compelling challenge to stereotypical images of battered women that are racist, homophobic, and xenophobic. The most up-to-date and comprehensive picture of domestic violence available, this anthology is an essential text for courses in sociology, criminology, social work, and women's studies. Beyond the classroom, it provides critical information and resources for professionals working in domestic violence services, advocacy, social work, and law enforcement. Newly revised and updated, this landmark anthology offers gripping portraits of American life as seen through the eyes of young women of color It has been decades since women of color first turned feminism upside down, exposing the feminist movement as exclusive, white, and unaware of the concerns and issues of women of color from around the globe. Since then, key social movements have risen, including Black Lives Matter, transgender rights, and the activism of young undocumented students. Social media has also changed how feminism reaches young women of color, generating connections in all corners of the country. And yet we remain a country divided by race and gender. Now, a new generation of outspoken women of color offer a much-needed

fresh dimension to the shape of feminism of the future. In *Colonize This!*, Daisy Hernandez and Bushra Rehman have collected a diverse, lively group of emerging writers who speak to the strength of community and the influence of color, to borders and divisions, and to the critical issues that need to be addressed to finally reach an era of racial freedom. With prescient and intimate writing, *Colonize This!* will reach the hearts and minds of readers who care about the experience of being a woman of color, and about establishing a culture that fosters freedom and agency for women of all races.

While there is a tacit appreciation that freedom from violence will lead to more prosperous relations among peoples, violence continues to be deployed for various political and social ends. Yet the problem of violence still defies neat description, subject to many competing interpretations. *Histories of Violence* offers an accessible yet compelling examination of the problem of violence as it appears in the corpus of canonical figures – from Hannah Arendt to Frantz Fanon, Michel Foucault to Slavoj Žižek – who continue to influence and inform contemporary political, philosophical, sociological, cultural, and anthropological study. Written by a team of internationally renowned experts, this is an essential interrogation of post-war critical thought as it relates to violence. First published in 1996. Routledge is an imprint of Taylor & Francis, an informa company.

More than 600 women and girls have been murdered and more than 1,000 have disappeared in the Mexican state of Chihuahua since 1993. Violence against women has increased throughout Mexico and in other countries, including Argentina, Costa Rica, Guatemala, and Peru. Law enforcement officials have often failed or refused to undertake investigations and prosecutions, creating a climate of impunity for perpetrators and denying truth and justice to survivors of violence and victims' relatives. *Terrorizing Women* is an impassioned yet rigorously analytical response to the escalation in violence against women in Latin America during the past two decades. It is part of a feminist effort to categorize violence rooted in gendered power structures as a violation of human rights. The analytical framework of femicide is crucial to that effort, as the editors explain in their introduction. They define femicide as gender-based violence that implicates both the state (directly or indirectly) and individual perpetrators. It is structural violence rooted in social, political, economic, and cultural inequalities. *Terrorizing Women* brings together essays by feminist and human rights activists, attorneys, and scholars from Latin America and the United States, as well as testimonios by relatives of women who were disappeared or murdered. In addition to investigating egregious violations of women's human rights, the contributors consider femicide in relation to neoliberal economic policies, the violent legacies of military regimes, and the sexual fetishization of women's bodies. They suggest strategies for confronting femicide; propose legal, political, and social routes for redressing injustices; and track alternative remedies generated by the communities affected by gender-based violence. In a photo essay portraying the justice movement in Chihuahua, relatives of disappeared and murdered women bear witness to femicide and demand accountability. Violence against women is a global issue of pandemic proportions, which has an impact on all societies. This Handbook is designed to assist and guide police officers in the prevention of, and response to, violence against women. It familiarizes them with relevant international laws, norms and standards relating to violence against women and informing them about some promising practical approaches to effective police response to act of the violence. While it has global applications, it is designed primarily for use by police in transitional and developing countries where institutional means to protect women from violence have not yet been created or implemented. It addresses the rights of both victims and offenders.

Black women in marginalized communities are uniquely at risk of battering, rape, sexual harassment, stalking and incest. Through the compelling stories of Black women who have been most affected by racism, persistent poverty, class inequality, limited access to support resources or institutions, Beth E. Richie shows that the threat of violence to Black women has never been more serious, demonstrating how conservative legal, social, political and economic policies have impacted activism in the U.S.-based movement to end violence against women. Richie argues that Black women face particular peril because of the ways that race and culture have not figured centrally enough in the analysis of the causes and consequences of gender violence. As a result, the extent of physical, sexual and other forms of violence in the lives of Black women, the various forms it takes, and the contexts within which it occurs are minimized—at best—and frequently ignored. *Arrested Justice* brings issues of sexuality, class, age, and criminalization into focus right alongside of questions of public policy and gender violence, resulting in a compelling critique, a passionate re-framing of stories, and a call to action for change.

In this revolutionary text, prominent Native American studies scholar and activist Andrea Smith reveals the connections between different

forms of violence—perpetrated by the state and by society at large—and documents their impact on Native women. Beginning with the impact of the abuses inflicted on Native American children at state-sanctioned boarding schools from the 1880s to the 1980s, Smith adroitly expands our conception of violence to include the widespread appropriation of Indian cultural practices by whites and other non-Natives; environmental racism; and population control. Smith deftly connects these and other examples of historical and contemporary colonialism to the high rates of violence against Native American women—the most likely to suffer from poverty-related illness and to survive rape and partner abuse. Smith also outlines radical and innovative strategies for eliminating gendered violence.

In this Seal Studies title, author and professor Maythee Rojas offers a look at the intricate crossroads of being a woman of color. *Women of Color and Feminism* tackles the question of how women of color experience feminism, and how race and socioeconomics can alter this experience. Rojas explores the feminist woman of color's identity and how it relates to mainstream culture and feminism. Featuring profiles of historical women of color (including Hottentot Venus, Josefa Loaiza, and Anna Mae Pictou-Aquash), a discussion of the arts, and a vision for developing a feminist movement built on love and community healing, Rojas examines the intersectional nature of being a woman of color and a feminist. Covering a range of topics, including sexuality, gender politics, violence, stereotypes, and reproductive rights, *Women of Color and Feminism* offers a far-reaching view of this multilayered identity. This powerful study strives to rewrite race and feminism, encouraging women to "take back the body" in a world of new activism. *Women of Color and Feminism* encourages a broad conversation about race, class, and gender and creates a discourse that brings together feminism and racial justice movements.
