Increasing numbers of Fed. employees (FE) will become eligible to retire over the next few years. Questions have been raised about whether the gov't. will be prepared to meet any problems that could arise as a result of retirements. This report determines how many FE are likely to retire in the near future. It estimates the no. of FE who would be eligible to retire and the no. who would actually retire collectively and by agency for the 24 Fed. agencies that fall under the CFO Act for FY 1999-2006, and compared those estimates with the no. of FE who

were eligible and actually retired during FY 1991-1998. Assesses actual and estimate eligibility and retirement for the same periods for selected critical occupations.

The perfect guide for developing an outstanding SF 171. Identifies best language to use. Biosocial Surveys analyzes the latest research on the increasing number of multipurpose household surveys that collect biological data along with the more familiar interviewerâ€"respondent information. This book serves as a follow-up to the 2003 volume, Cells and Surveys: Should Biological Measures Be Included in Social Science Research? and asks these questions: What have the social sciences, especially demography, learned from those efforts and the greater interdisciplinary communication that has resulted from them? Which biological or genetic information has proven most useful to researchers? How can better models be developed to help integrate biological and social science information in ways that can broaden scientific understanding? This volume contains a collection of 17 papers by distinguished experts in demography, biology, economics, epidemiology, and survey methodology. It is an invaluable sourcebook for social and behavioral science researchers who are working with biosocial data.

Discusses the nature of government jobs, civil service hiring procedures, types of jobs available, examinations, the application form, working abroad, and provisions for people with disabilities.
