The publication of the King James version of the Bible, translated between 1603 and 1611, coincided with an extraordinary flowering of English literature and is universally acknowledged as the greatest influence on English-language literature in history. Now, world-class literary writers introduce the book of the King James Bible in a series of beautifully designed, small-format volumes. The introducers' passionate, provocative, and personal engagements with the spirituality and the language of the text make the Bible come alive as a stunning work of literature and remind us of its overwhelming contemporary relevance.

The Pulitzer Prize-winning history of the Scopes Trial and the battle over evolution and creation in America's schools. In the summer of 1925, the sleepy hamlet of Dayton, Tennessee, became the setting for one of the twentieth century's most contentious courtroom dramas, pitting William Jennings Bryan and the anti-Darwinists against a teacher named John Scopes, represented by Clarence Darrow and the ACLU, in a famous debate over science, religion, and their place in public education. That trial marked the start of a battle that continues to this day in cities and states throughout the country. Edward Larson's classic *Summer for the Gods* -- winner of the Pulitzer Prize in History -- is the single most authoritative account of this pivotal event. An afterword assesses the state of the battle between creationism and evolution, and points the way to how it might potentially be resolved.

Barbara Kingsolver's acclaimed international bestseller tells the story of an American missionary family in the Congo during a poignant chapter in African history. It spins the tale of the fierce evangelical Baptist, Nathan Price, who takes his wife and four daughters on a missionary journey into the heart of darkness of the Belgian Congo in 1959. They carry with them to Africa all they believe they will need from home, but soon find that all of it - from garden seeds to the King James Bible - is calamitously transformed on African soil. Told from the perspective of the five women, this is a compelling exploration of African history, religion, family, and the many paths to redemption. *The Poisonwood Bible* was nominated for the Pulitzer Prize in 1999 and was chosen as the best reading group novel ever at the Penguin/Orange Awards. It continues to be read and adored by millions worldwide.

Sham and the stable boy Agba travel from Morocco to France to England where, at last, Sham's majesty is recognized and he becomes the "Godolphin Arabian," ancestor of the most superior Thoroughbred horses.

In an easy-to-read text, this book examines the growing scientific evidence that is challenging Darwin's theory of evolution: lack of transitional forms in the fossil record; the impossibility of mutations (almost universally destructive) serving as evolutionary building blocks; the flawed logic of natural selection theory; the stunning lack of evidence for ape-men; the mathematic impossibility of life beginning by itself; and much more. Also explores the damaging effect societal impact of Darwinism, and examines how *Inherit the Wind* grossly misled Americans about the Scopes trial. Addresses the ever-vital question: Are we here by chance or are we created by God? Indexed, over 80 illustrations, hundreds of quotes from scientists.

ENDORSEMENTS
DR. DUANE T. GISH, SENIOR VICE PRESIDENT, INSTITUTE FOR CREATION RESEARCH:
"Tornado in a Junkyard by James Perloff should be in the library of every one who is

interested in the subject of origins. This book is a powerful argument for creation because it is thorough, fully documented, and scientifically accurate. It is easily readable by scientist and layman alike, and is written in a popular style that will make it interesting and entertaining for readers of all ages. I highly recommend this book."PUBLISHER'S WEEKLY, 8-30-99: "James Perloff's intriguing Tornado in a Junkyard aims to debunk evolutionary theory in favor of creationism. Perloff, a former contributing editor to the New American, draws upon the work of neo-Darwinists and geneticists to argue that 'while microevolution does occur--meaning minor adaptations and variations within a species, ' there is no solid evidence for macroevolution, or conversion of one animal type into another."DR. EMMETT L. WILLIAMS, PRESIDENT, CREATION RESEARCH SOCIETY: "Tornado in a Junkyard is a unique presentation of the scientific case against Darwinism, informally written for laymen. If you are looking for a user-friendly explanation of the facts supporting creation, this book is for you."CONSERVATIVE BOOK CLUB, 12-99: "James Perloff brings all the data together in a volume readily accessible to nonscientific types. His conclusion, carefully drawn: science contradicts Darwinism. . . . Perloff's style, unusually lively, makes Tornado in a Junkyard entertaining as well as educational."ACTOR JACK LEMMON, WHO PLAYED CLARENCE DARROW IN THE 1999 FILM VERSION OF INHERIT THE WIND: "My congratulations to Mr. Perloff for an outstanding piece of work."HOMESCHOOLING TODAY, JAN/FEB-2000: "Why another 'anti-evolution' book? Because Tornado in a Junkyard is different. Author James Perloff, a former fanatical atheist and anti-creationist, understands the other side's point of view. He presents facts that logically disprove Darwinism and unveils the many frauds and lies perpetrated by Darwinists that the public accepts as unshakeable scientific fact."ELLEN MYERS, CREATION RESOURCE LIBRARY, WICHITA, KANSAS: "I've been heavily involved in the creationist movement for many years and am familiar with most of the facts cited in Tornado. However, the racy style, the many excellent photos, and especially the less known details and extensive documentation will now make Tornado my resource of choice in my work."THE NEW AMERICAN, 9-13-99: "Perloff demonstrates--in this reviewer's opinion conclusively--that scientific evidence, when examined honestly, does not support modern Darwinism, but actually contradicts it. . . . This is a very important work, written in an informal and attractive style that is a joy to read."VICKI BRADY, HOST, "HOMESCHOOLING USA": "With so many books out on the evolution/creation debate it is getting hard to choose from good, better and best. James' book falls in the best category. I recommend that every homeschool family and church have a copy for their libraries."CHRISTIAN NEWS, 9-27-99: "Christian News highly recommends Tornado in a Junkyard.

Americans have built an empire on the idea of "race," a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? *Between the World and Me* is Ta-Nehisi Coates's attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children's lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bravely confronts our present, and offers a transcendent vision for a way forward.

In the early twentieth century, two wealthy white sisters, cousins to a North Carolina governor, wrote identical wills that left their substantial homeplace to a black man and his daughter. Maggie Ross, whose sister Sallie died in 1909, was the richest woman in Union County, North Carolina. Upon Maggie's death in 1920, her will bequeathed her estate to Bob Ross—who had grown up in the sisters' household—and his daughter Mittie Bell Houston. Mittie had also grown up with the well-to-do women, who had shown their affection for her by building a house for her and her husband. This house, along with eight hundred acres, hundreds of dollars in cash, and two of the white family's three gold watches went to Bob Ross and Houston. As soon as the contents of the will became known, more than one hundred of Maggie Ross's scandalized cousins sued to break the will, claiming that its bequest to black people proved that Maggie Ross was mentally incompetent. Revealing the details of this case and of the lives of the people involved in it, Gene Stowe presents a story that sheds light on and complicates our understanding of the Jim Crow South. Stowe's account of this famous court battle shows how specific individuals, both white and black, labored against the status quo of white superiority and ultimately won. An evocative portrait of an entire generation's sins, *Inherit the Land: Jim Crow Meets Miss*

Maggie's Will hints at the possibility for color-blind justice in small-town North Carolina. 1998. Varg Veum sits by the hospital bedside of his long-term girlfriend Karin, whose life-threatening injuries provide a deeply painful reminder of the mistakes he's made. Investigating the seemingly innocent disappearance of a wind-farm inspector, Varg Veum is thrust into one of the most challenging cases of his career, riddled with conflicts, environmental terrorism, religious fanaticism, unsolved mysteries and dubious business ethics. Then, in one of the most heart-stopping scenes in crime fiction, the first body appears... A chilling, timeless story of love, revenge and desire, *We Shall Inherit the Wind* deftly weaves contemporary issues with a stunning plot that will leave you gripped to the final page. This is Staalesen at his most thrilling, thought-provoking best. "The characters in the book are drawn with more nuances and more psychological insight than in most crime novels ... there is generally something Ibsenian about this detective novel in which past sins play such an important part in the present" --Bergens Tidende "Gunnar Staalesen is one of my very favourite Scandinavian authors. Operating out of Bergen in Norway, his private eye, Varg Veum, is a complex but engaging anti-hero. Varg means "wolf" in Norwegian, and this is a series with very sharp teeth" --Ian Rankin "A Norwegian Chandler" --Jo Nesbo "Gunnar Staalesen was writing suspenseful and socially conscious Nordic Noir long before any of today's Swedish crime writers had managed to put together a single book page ... one of Norway's most skilful storyteller" --Johan Theorin "Razor-edged Scandinavian crime fiction at its finest" --Quentin Bates "Not many books hook you in the first chapter - this one did, and never let go!" --Mari Hannah "One of the finest Nordic novelists in the tradition of Henning Mankell" --Barry Forshaw, Independent "Staalesen's mastery of pacing enables him to develop his characters in a leisurely way without sacrificing tension and suspense" --Publishers Weekly "The Varg Veum series stands alongside Connelly, Camilleri and others, who are among the very best modern exponents of the poetic-yet-tough detective story, with strong, classic plots; a social conscience; and perfect pitch in terms of sense of place" --EuroCrime "Norway's bestselling crime writer" --The Guardian "An upmarket Philip Marlowe" --Maxim Jakubowski, The Bookseller "In the best tradition of sleuthery" --The Times This book is an exploration of how the relationship of evangelicals to the arts has been portrayed in fiction for the last century. The author argues that evangelicals

are consistently seen as enemies of the arts by non-evangelical writers. The artist (typically represented by a literal artist, occasionally by a scientist or reluctant messiah) typically has to fight for liberation from such clichéd character types as the failed evangelical artist, the rube or the hypocritical pastor. Rather than resist the cliché of anti-art evangelicalism, the book contends that evangelicals should embrace it: this stereotype is only hurtful so long as one assumes that the arts represent a positive force in human society. This work, built off the scholarship of John Carey, does not make that assumption. Surveying the current pro-artistic views of most evangelicals, the author advances the argument that evangelicals need to return to their anti-art roots. By doing so they would align themselves with the most radical artistic elements of modernism rather than with the classicists that the movement currently seems to prefer, and provide space for themselves to critique how secular artistic stereotypes of evangelicals have economically and artistically marginalized the evangelicals' community.

One day Sophie comes home from school to find two questions in her mail: "Who are you?" and "Where does the world come from?" Before she knows it she is enrolled in a correspondence course with a mysterious philosopher. Thus begins Jostein Gaarder's unique novel, which is not only a mystery, but also a complete and entertaining history of philosophy. THE STORY: Even in her early days as an obscure radio actress, the natively keen-minded Felicia exploits every opportunity to obtain personal recognition. She meets a young army Colonel, who launches her into the stratosphere of society, and who, a Sharp, thoughtful and mysterious, How the World Began is a powerful story about an outsider in a close-knit, devastated community. Susan, a science teacher from Manhattan, starts work in a small rural Kansas town that's been ripped apart by a tornado. When one of her pupils - the damaged, articulate Micah - takes offence at an off-the-cuff remark about how life on Earth began, Susan is thrown into an ethical firestorm about science and faith that leads to her fearing for her safety. Casting light on the tension between religion and secular liberalism, How the World Began explores the debate between creationism and evolution, and how this is taught in schools. With hints of American classics like Inherit the Wind and The Catcher in the Rye, the play traces the inexorable, fatalistic momentum from a single casual act into an all-encompassing dispute. A dispute which then threatens the very foundations of a community still reeling from a colossal disaster. In addition to its relevant and complex themes, the play is also about human psychology and what drives people to extreme ideological positions in times of duress. With writing which is provocative, moving and intelligent, Catherine Trieschmann asks important questions alongside in-depth character studies. This shrewd and compassionate drama is astute, perceptive and controversial.

The companion volume to *The Earth Chronicles* series that reveals the identity of mankind's ancient gods • Explains why these "gods" from Nibiru, the Anunnaki, genetically engineered Homo sapiens, gave Earthlings civilization, and promised to return • 30,000 sold in hardcover

Zecharia Sitchin's bestselling series *The Earth Chronicles* provided humanity's side of the story concerning our origins at the hands of the Anunnaki, "those who from heaven to earth came." In *The Lost Book of Enki* we now view this saga from the perspective of Lord Enki, an Anunnaki leader revered in antiquity as a god, who tells the story of these extraterrestrials' arrival on Earth from the planet Nibiru. In his previous works Sitchin compiled the complete story of the Anunnaki's impact on human civilization from fragments scattered throughout Sumerian, Akkadian, Babylonian, Assyrian, Hittite, Egyptian, Canaanite, and Hebrew sources. Missing from these accounts, however, was the perspective of the Anunnaki themselves. What was life like on their own planet? What motives propelled them to settle on Earth--and what drove them from their new home? Convinced of the existence of a lost book that held the answers to these questions, the author began his search for evidence. Through exhaustive research of primary sources, he has here re-created tales as the memoirs of Enki, the leader of these first "astronauts." What takes shape is the story of a world of mounting tensions, deep rivalries, and sophisticated scientific knowledge that is only today being confirmed. An epic tale of gods and men unfolds, challenging every assumption we hold about our past and our future. In a small Pacific Northwest town we meet a young man who has shot dead his best friend with a gun. The novel deals with the repercussions of this tragedy: the anguish, regret, despair and bittersweet romance. Typical of Brautigan's singular style, *So the Wind Won't Blow it all Away* is a beautifully written, brooding novel. Its autobiographical prose is a fitting epitaph to this complex, contradictory and often misunderstood writer.

A classic work of American theatre, based on the Scopes Monkey Trial of 1925, which pitted Clarence Darrow against William Jennings Bryan in defense of a schoolteacher accused of teaching the theory of evolution The accused was a slight, frightened man who had deliberately broken the law. His trial was a Roman circus. The chief gladiators were two great legal giants of the century. Like two bull elephants locked in mortal combat, they bellowed and roared imprecations and abuse. The spectators sat uneasily in the sweltering heat with murder in their hearts, barely able to restrain themselves. At stake was the freedom of every American. One of the most moving and meaningful plays of our generation. Praise for *Inherit the Wind* "A tidal wave of a drama."—*New York World-Telegram And Sun* "Jerome Lawrence and Robert E. Lee were classic Broadway scribes who knew how to crank out serious plays for thinking Americans. . . . *Inherit the Wind* is a perpetually prescient courtroom battle over the legality of teaching evolution. . . . We're still arguing this case—all the way to the White House."—*Chicago Tribune* "Powerful . . . a crackling good courtroom play . . . [that] provides two of the juiciest roles in American theater."—*Copley News Service* "[This] historical drama . . . deserves respect."—*The Columbus Dispatch*
