and apply mathematics toward becoming college and career ready.

States and markets are integrated segments of government that rely on one another for efficient operation. Research on the workings and happenings among these two entities is essential to ensure optimal functioning of public management and the political economy. *Positioning Markets and Governments in Public Management* is an advanced reference publication featuring the latest scholarly research on modern-day issues within political economy. Including coverage on a range of topics such as public policy, healthcare, and immigration, this book is ideally designed for professionals, researchers, and students interested in research and frameworks concerning governments and markets. Between 1895 and 1904 a great wave of mergers swept through the manufacturing sector of the U.S. economy. In *The Great Merger Movement in American Business*, Lamoreaux explores the causes of the mergers, concluding that there was nothing natural or inevitable about turn-of-the-century combinations.
