Medical Insurance is designed around the revenue cycle with each part of the book dedicated to a section of the cycle followed by case studies to apply the skills discussed in each section. The revenue cycle now follows the overall medical documentation and revenue cycle used in practice management/electronic health records environments and applications. Because of the mandate to the healthcare industry to adopt ICD-10-CM/PCS on October 1, 2015, you must work to gain

expertise using this coding system. For this reason, ICD-10 is the diagnostic coding system taught and exemplified in Medical Insurance: A Revenue Cycle Process Approach.
