Property Law and Social Morality develops a theory of property that highlights the social construction of obligations that individuals owe each other. By viewing property law through the lens of obligations rather than through the lens of rights, the author affirms the existence of important property rights (when no obligation to another exists) and defines the scope of those rights (when an obligation to another does exist). By describing the scope of the decisions that individuals are permitted to make and the requirements of other-regarding decisions, the author develops a single theory to explain the dynamics of private and common property, including exclusion, nuisance, shared decision making, and decision making over time. The development of social recognition norms adds to our understanding of property evolution, and the principle of equal freedom underlying social recognition that limit government interference with property rights.

Neighbor Law clearly explains the laws regarding common disputes between neighbors and shows you what to do about trees that hang over a property line, noisy neighbors, unclear boundary lines, blocked views, high or unsightly "spite" fences, tensions between farmers and residential neighbors, dangerously deteriorating fences, and dangers to children (attractive nuisances). Neighbor Law sets out a step-by-step strategy for resolving disputes without a lawsuit. And if you do end up in court, it shows you how to prepare and present a convincing case.

Discusses the origins and characteristics of American proverbs and examines the role of proverbial speech in American politics from the Revolutionary War to the present day.

An enchanting, comic love letter to sibling rivalry and the English language. From the author compared to Nora Ephron and Nancy Mitford, not to mention Jane Austen, comes a new novel celebrating the beauty, mischief, and occasional treachery of language. The Grammarians are Laurel and Daphne Wolfe, identical, inseparable redheaded twins who share an obsession with words. They speak a secret "twin" tongue of their own as toddlers; as adults making their way

in 1980s Manhattan, their verbal infatuation continues, but this love, which has always bound them together, begins instead to push them apart. Daphne, copy editor and grammar columnist, devotes herself to preserving the dignity and elegance of Standard English. Laurel, who gives up teaching kindergarten to write poetry, is drawn, instead, to the polymorphous, chameleon nature of the written and spoken word. Their fraying twinship finally shreds completely when the sisters go to war, absurdly but passionately, over custody of their most prized family heirloom: Merriam Webster's New International Dictionary, Second Edition. Cathleen Schine has written a playful and joyful celebration of the interplay of language and life. A dazzling comedy of sisterly and linguistic manners, a revelation of the delights and stresses of intimacy, *The Grammarians* is the work of one of our great comic novelists at her very best.

New York Times Bestseller "Compelling and utterly fascinating." --Lisa Wingate, author of *Before We Were Yours* An enthralling feat of historical suspense that unravels the extraordinary twists and turns in Anna Anderson's fifty-year battle to be recognized as Anastasia Romanov. Is she the Russian Grand Duchess or the thief of another woman's legacy? Countless others have rendered their verdict. Now it is your turn. Russia, July 17, 1918: Under direct orders from Vladimir Lenin, Bolshevik secret police force Anastasia Romanov, along with the entire imperial family, into a damp basement in Siberia, where they face a merciless firing squad. None survive. At least that is what the executioners have always claimed. Germany, February 17, 1920: A young woman bearing an uncanny resemblance to Anastasia Romanov is pulled shivering and senseless from a canal. Refusing to explain her presence in the freezing water or even acknowledge her rescuers, she is taken to the hospital where an examination reveals that her body is riddled with countless horrific scars. When she finally does speak, this frightened, mysterious young woman claims to be the Russian grand duchess. As rumors begin to circulate through European society that the youngest Romanov daughter has survived the massacre at Ekaterinburg, old enemies and new threats are awakened. The question of who Anna Anderson is and what actually happened to Anastasia Romanov spans fifty years and touches three continents. This thrilling saga is every bit as moving and momentous as it is harrowing and twisted.

So your neighbor's giant sequoia is blocking your view. Who ya gonna call? The search for a 'dispute buster' should end with this helpful new book. *Sunset*

A treatise that is both informative and entertaining, Understanding Tree Law is the first in-depth treatment of this often contentious and confusing area of law. Written by the country's leading expert in the litigation and mediation of tree and neighbor disputes, this handbook provides practitioners with a comprehensive explanation of all aspects of tree law, including view obstructions, damage from falling trees and limbs, nuisance from hazards, debris and roots, injury from tree failures, ownership versus encroachment, trespass and wrongful cutting of trees, and appraisal of trees that have been damaged or removed. Because it's never about the trees, the author reveals an insider's perspective on tips and strategies for resolving clients' matters by identifying, understanding, and defusing the psychological underpinnings that often plague these disputes. Beyond providing black letter law, Understanding Tree Law offers a unique approach toward problem solving, starting with the proposition that attorneys are first and foremost counselors at law. This socially responsible philosophy reminds us that

law, like medicine, can and should be a healing profession.

The Clean Water Act (CWA) requires that wetlands be protected from degradation because of their important ecological functions including maintenance of high water quality and provision of fish and wildlife habitat. However, this protection generally does not encompass riparian areas—the lands bordering rivers and lakes—even though they often provide the same functions as wetlands. Growing recognition of the similarities in wetland and riparian area functioning and the differences in their legal protection led the NRC in 1999 to undertake a study of riparian areas, which has culminated in *Riparian Areas: Functioning and Strategies for Management*. The report is intended to heighten awareness of riparian areas commensurate with their ecological and societal values. The primary conclusion is that, because riparian areas perform a disproportionate number of biological and physical functions on a unit area basis, restoration of riparian functions along America's waterbodies should be a national goal.

First published in 1990, this collection of essays in literary criticism, feminist theory and race relations was named one of the top twenty-five books of 1988 by the *Voice Literary Supplement*. The title covers such subjects as black literature; the reconstruction of culture, changing arts, letters and sciences to include the topics of women and gender; and, the nature of family and the changing roles of women within society. As such, Catharine Stimpson employs a transdisciplinary approach, to encourage greater understanding of the differences among women, and thus socially-constructed differences in general. *Where the Meanings Are* tells of some of the arguments within feminism during the re-designing and designing of cultural spaces, as post-modernism began to change the boundaries of race, class, and gender. It will therefore be of great value to students and general readers with an interest in the relationship between gender and culture, sex and gender difference, feminist theory and literature.

Throughout *Front Yard America*, Schroeder inquires into the functions, values, and meanings that Americans have found in the domestic landscapes of back yards and front yards, walls and fences, porches and patios.
