Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

Index is composed of 3 sections: Basic classifications subject, Current VA directives, and Rescinded VA directives.

Lists all publications issued in 1941-46 received into the Library of the Public Documents Division too late for inclusion in the current Monthly catalog and certain publications received in 1947 which were declassified, etc.

Everyone is familiar with the iconic WWII Jeep, its green paintwork annotated with white letters, numbers and symbols. Unintelligible to the casual observer, these markings were integral to the organization of the U.S. Army on the move in 1944. This uniquely detailed guide covers all the markings used on American tanks and tracked vehicles, lorries and jeeps to denote their unit and classification, plus tactical markings and the debarkation codes used in the Normandy landings. Hundreds of contemporary photographs are paired with precise color diagrams to show exactly how markings appeared on vehicles, including the exact measurements, and explain all the different variations in use. A final chapter covers the variations of camouflage used on vehicles. The perfect reference book for modelers, collectors, and restorers of historic vehicles, and a fascinating guide to anyone wanting to use WWII photographs to aid their research. The record of each copyright registration listed in the
