

Pierre Auguste Renoir Getting To Know The Worlds Greatest Artists Paperback

John House examines the many facets of the work and what it reveals about Renoir as a man and artist. He asks, "What did it mean to paint a picture like La Promenade in France in 1870, in the final months of Napoleon III's Second Empire?" The reader is invited to look at the canvas - and Impressionism - as a rejection of the idealist world of academic art and as a challenge to contemporary social norms.

A spectacular survey of the world's most comprehensive collection of works by the Impressionist master Renoir

William J. Glackens's (1870-1938) keen interest in the work of Pierre-Auguste Renoir (1841-1919) has long been recognized, but Glackens's specific debt to the art of this important French modernist has not been fully explored. In bringing together more than 30 works by each of these two important modernists for the first time, William Glackens and Pierre-Auguste Renoir: Affinities and Distinctions fills this void. It demonstrates Glackens's response to Renoir's Impressionist work (1860-mid-1880s), which was avidly purchased by a wide variety of American collectors, including Albert C. Barnes, who sent Glackens, his friend and colleague, to Paris in 1912 to purchase works for his then fledgling collection. Glackens was the only American artist who subsequently had nearly carte blanche access to Barnes' increasingly important collection of American and European modern art that included work by Paul Cézanne, Henri Matisse, and Pablo Picasso, among others, and numerous examples of Renoir's late-style (1890-1919). The exhibition defines Glackens's late style (c.1925-1938) for the first time, its affinities and distinctions from Renoir's work, and how it emerges from Glackens's familiarity with works specific exhibitions in New York, and the art he saw in Italy in 1926, and in Barnes' collection, while shedding new light on the history of taste in American collecting from the late-nineteenth to the mid-twentieth century.

Originally published in France in 2012, Pascal Mérigeau's definitive biography of legendary film director Jean Renoir is a landmark work—the winner of a Prix Goncourt, France's top literary achievement. Now available in the English language for the first time, *Jean Renoir: A Biography*, is the definitive study of one of the most fascinating and creative artistic figures of the twentieth century. He made movies in France, America, India, and Italy and became a writer during the last part of his life. An estimated 75 percent of the book details previously unknown information about the filmmaker, including: –Renoir's close affiliation with Communism in the '30s, when he was the Party's official director –His previously uncredited Hollywood film, *The Amazing Mrs. Holiday* –His desire to become an “American director” and appeal to American audiences Drawing from unpublished or little-known sources and featuring previously unpublished photos, this biography is a completely fresh look at the maker of *Grand Illusion* and *The Rules of the Game*, redefining the very function of the movie director and recounting the history of a century.
