Coal Geology John Wiley & Sons

Using an illuminating method that challenges the popular notion of Romanticism as aesthetic escapism, Theodore Ziolkowski explores five institutions--mining, law, madhouses, universities, and museums--that provide the socio-historical context for German Romantic culture. He shows how German writers and thinkers helped to shape these five institutions, all of which assumed their modern form during the Romantic period, and how these social structures in turn contributed to major literary works through image, plot, character, and theme. "Ziolkowski cannot fail to impress the reader with a breadth of erudition that reveals fascinating intersections in the life and works of an artist.... He conveys the sense of energy and idealism that fueled Schiller and Goethe, Fichte and Hegel, Hoffmann and Novalis...."--Emily Grosholz, *The Hudson Review* "[This book] should be put in the hands of every student who is seriously interested in the subject, and I cannot imagine a scholar in the field who will not learn from it and be delighted with it."--Hans Eichner, *Journal of English and Germanic Philology* "Ziolkowski is among those who go beyond lip-service to the historical and are able to show concretely the ways in which generic and thematic intentions are inextricably enmeshed with local and specific institutional circumstances."--Virgil Nemoianu, *MLN*

In this acclaimed memoir, Mezlekia recalls his boyhood in the arid city of Jijiga, Ethiopia, and his journey to manhood during the 1970s and 1980s. He traces his personal evolution from child to soldier--forced at the age of eighteen to join a guerrilla army. And he describes the hardships that consumed Ethiopia after the fall of Emperor Haile Selassie and the rise to power of the communist junta, in whose terror thousands of Ethiopians died. Part autobiography and part social history, *Notes from the Hyena's Belly* offers an unforgettable portrait of Ethiopia, and of Africa, during the defining and turbulent years of the last century.

Wound Care Made Incredibly Easy! Second Edition covers fundamental wound care principles and procedures, using a light-hearted, entertaining style. Coverage begins with skin anatomy and physiology, wound progression and healing, and factors that can delay or complicate healing. Subsequent chapters cover wound assessment and monitoring and wound care planning, procedures, and products. The book includes eight pages of full-color illustrations, intervention algorithms for diabetic, arterial, and venous ulcers, and eye-catching logos that emphasize key points. This new edition includes coverage of malignant wounds and palliative care. A new logo highlights considerations for special populations, including pediatric, geriatric, and bariatric patients.

This information from the U.S. Army Marksmanship Training Unit is designed to help a trained individual in the selection of equipment, training and employment of the countersniper.

Since political theorist Leo Strauss's death in 1973, American interpreters have heatedly debated his intellectual legacy. Daniel Tanguay recovers Strauss from the atmosphere of partisan debate that has dominated American journalistic, political, and academic discussions of his work. Tanguay offers in crystal-clear prose the first assessment of the whole of Strauss's thought, a daunting task owing to the vastness and scope of Strauss's writings. This comprehensive overview of Strauss's thought is indispensable for anyone seeking to understand his philosophy and legacy. Tanguay gives special attention to Strauss's little-known formative years, 1920-1938, during which the philosopher elaborated the theme of his research, what he termed the "theological-political problem." Tanguay shows the connection of this theme to other major elements in Strauss's thought, such as the Quarrel between the Ancients and Moderns, the return to classical natural right, the art of esoteric writing, and his critique of modernity. In so doing, the author approaches what is at the heart of Strauss's work: God and politics. Rescuing Strauss from polemics and ill-defined generalizations about his ideas, Tanguay provides instead an important and timely analysis of a major philosophical thinker of the twentieth century.

Credit Analysis and Lending Management is a new Australasian text that focuses on the core lending functions of financial institutions, covering asset management, credit risk assessment and analysis, lending policy formulation and management, and the rise of new product development and marketing in the financial services sector. The value of any financial institution is measured by its ability to effectively manage and reduce its credit risk. This text details the structure of the credit organisation, including loan markets. Relevant financial statements are presented to develop students' interpretative and analytical understanding of financial statements. Features: * Developments in loan marketing and new loan products are profiled and assessed (see chapter 17.) * Problem loan management is discussed as a growing professional issue (see chapter 16). * Detailed case studies at the end of the text present a diverse set of professional scenarios that can be used for assignment, assessment and group work activities. * 'Industry insight' boxes profile current professional issues and identify industry developments. * 'A day in the life of...' boxes highlight the diversity of professional roles in the banking industry.

This work is a comprehensive, heavily illustrated history of the many flying boats and amphibious aircraft designed and built in the United States. It is divided into three chronological sections: the early era (1912-1928), the golden era (1928-1945), and the post-war era (1945-present), with historical overviews of each period. Within each section, individual aircraft types are listed in alphabetical order by manufacturer or builder, with historical background, technical specifications, drawings, and one or more photographs. Appendices cover lesser known flying boat and amphibian types as well as various design concepts that never achieved the flying stage.

Describes a viable alternative power source. Manzanares, Spain's solar chimney has proven to be effective.

Discover English provides a solid grammar and lexical syllabus with the perfect mix of variety and challenge to motivate young learners. Your students' learning journey begins here. Travel through time with Jo-Jo, Oscar and Mr Big. Explore foreign countries and learn about different cultures. Design computer games, break codes and learn about themselves. All this and more as their English improves Discover English... Discover the world!

In this volume of journal "International Journal of Engineering Research in Africa" articles which describe the results of engineering researches and decisions in the fields of structural materials, building materials and construction technologies, applied dynamics of fluid and flow, power engineering, transportation and engineering management of modern production are collected. Published articles will be useful for professionals from field of mechanical engineering, chemical engineering, engineering management and for students and academic teachers of the related specialties. This updated and expanded edition of *Creative Homeowner's* comprehensive, bestselling plumbing how-to book covers the most up-to-date products and techniques. Strong emphasis in the how-to information is placed on doing things correctly, so all of the projects use only code-compliant techniques. *Ultimate Guide: Plumbing, 4th Edition* prepares the

do-it-yourselfer to handle any plumbing task in the home, from replacing a washer in a leaky faucet to renovating a bathroom. It also gives readers an overview of a house's plumbing system, including supply, waste, and vent piping, and explains the basic physics that keep everything working well. In addition to learning how to plan and complete each project, readers learn how to spot and improve outdated or dangerous techniques and materials in their home plumbing system.

Contains background information on the chemical and physical properties of coal--its nature, origins, various types and classification on a global basis. Highlights currently known geographical distribution of coals, their ages, recent production figures and major exporter countries. Essential exploration techniques and procedures, together with standards of geological practice, are described. The geologist's role in data collection, sampling, the calculation of resources/reserves, geotechnical studies as well as the preparation of geological reports are examined.

Introduction to Micromachining discusses the working principles, the laboratory models developed and the applications of different individual micromachining processes. It basically deals with two classes of u-machining processes: First category deals with those processes used for shaping and sizing of microproducts and macroproducts, for example, electrochemical micromachining, electrodischarge micromachining, laser beam micromachining, diamond turning etc. The second class of u-machining processes includes u-/ nano-finishing techniques useful for both u and macro products. These processes include abrasive flow machining, magnetic abrasive finishing, magnetic float polishing, etc. This book is an outcome of joint efforts by a group of Professors and Researchers from the renowned institutions from different countries, involved in high level research in related areas. They have written chapters in this book useful for the undergraduate and postgraduate students as a text book, and as a reference book for those involved in the research work in u-machining area. NEW TO THE SECOND EDITION: Eight new chapters Review questions to help both the teachers and students Solved problems, objective questions, multiple choice questions and short questions These facets of the second edition of the book make it a suitable textbook.

A septuagenarian fitness expert outlines a program that combines exercise, nutrition, hormones and holistic medicine to counsel men on how to approach aging from a strong and healthy perspective, drawing on various exercise disciplines while providing an accessible menu schedule. Reprint. 50,000 first printing.

Violence is one of the most important challenges, not only for public health systems, but also for public mental health. Violence can have immediate as well as long-term and even transgenerational effects on the mental health of its victims. This book provides a comprehensive and wide-ranging assessment of the mental health legacy left by violence. It addresses the issues as they affect states, communities and families, in other words at macro-, meso- and microlevels, beginning by describing the impact of violence on neurobiology and mental health, as well as the spectrum of syndromes and disorders associated with different forms of violence. The work moves on to tackle violence at the international—and intranational—level before zeroing in on the nature of violence in communities such as villages or city districts. It also examines the results of violence in the family. Each type of violence has distinct effects on mental health and in each chapter specific groups are explored in depth to demonstrate the heterogeneity of violence as well as the diversity of its outcomes in the realm of public mental health. Finally, the book addresses the notion of 'undoing violence' by detailing case studies of effective interventions and prevention occurring in countries, communities and families. These cases give us pause to reflect on the nature of resilience and dignity in the context of violence and mental health. All the chapters have been written by leading authors in the field and provide a state-of-the-art perspective. The authors, from different fields of expertise, facilitate interdisciplinary and international insights into the impact of violence on mental health.

A global exploration of coal geology, from production and use to chemical properties and coal petrology Coal Geology, 3rd Edition, offers a revised and updated edition of this popular book which provides a comprehensive overview of the field of coal geology including coal geophysics, hydrogeology and mining. Also covered in this volume are fully revised coverage of resource and reserve definitions, equipment and recording techniques together with the use of coal as an alternative energy source as well as environmental implications. This third edition provides a textbook ideally suited to anyone studying, researching or working in the field of coal geology, geotechnical engineering and environmental science. Fills the gap between academic aspects of coal geology and the practical role of geology in the coal industry Examines sedimentological and stratigraphical geology, together with mining, geophysics, hydrogeology, environmental issues and coal marketing Defines global coal resource classifications and methods of calculation Addresses the alternative uses of coal as a source of energy Covers a global approach to coal producers and consumers

This edition of The Little Black Songbook presents the complete lyrics and chords to over 70 stellar hits from the 80s! This handy chord songbook is perfect for any aspiring guitarist, ideal for group singalongs, a spot of busking or simply to explore all that the 80s had to offer. This little book includes: An Englishman In New York [Sting] Ashes To Ashes [David Bowie] Borderline [Madonna] Call Me [Blondie] Christine [Siouxsie & The Banshees] Crazy Crazy Nights [Kiss] Don't Dream It's Over [Crowded House] Eye Of The Tiger [Survivor] Goody Two Shoes [Adam Ant] Heaven Is A Place On Earth [Belinda Carlisle] Heaven Knows I'm Miserable Now [The Smiths] I Guess That's Why They Call It The Blues [Elton John] Karma Chameleon [Culture Club] Livin' On A Prayer [Bon Jovi] Love Will Tear Us Apart [Joy Division] Mad World [Tears For Fears] Oh Yeah [Roxy Music] Pride (In The Name Of Love) [U2] Pure [The Lightning Seeds] Purple Rain [Prince] Real Gone Kid [Deacon Blue] Relax [Frankie Goes To Hollywood] Rock The Casbah [The Clash] Summer Of '69 [Bryan Adams] Take My Breath Away [Berlin] This Ole House [Shakin' Stevens] Thorn In My Side [Eurythmics] Thriller [Michael Jackson] Town Called Malice [The Jam] True [Spandau Ballet] Walk Like An Egyptian [The Bangles] You Shook Me All Night Long [AC/DC] You Win Again [The Bee Gees] And many more!

This critically annotated bibliography includes entries for more than 1300 books on ecumenism published between 1950 and 1992. It also describes 85 journals devoted to ecumenism. The work begins with an introductory essay that describes the various types of ecumenical publications and discusses the historical events that occasioned their production. The bibliography follows. Entries are arranged in topical chapters, and each annotation assesses the strengths and weaknesses of the work cited. The volume concludes with comprehensive author, title, and subject indexes.

Describes the production variants, the weapons, and equipment of the Messerschmitt 109 fighter plane.
