“Over a decade after its publication, one book on dating has people firmly in its grip.” —The New York Times We already rely on science to tell us what to eat, when to exercise, and how long to sleep. Why not use science to help us improve our relationships? In this revolutionary book, psychiatrist and neuroscientist Dr. Amir Levine and Rachel Heller scientifically explain why why some people seem to navigate relationships effortlessly, while others struggle. Discover how an understanding of adult attachment—the most advanced relationship science in existence today—can help us find and sustain love. Pioneered by psychologist John Bowlby in the 1950s, the field of attachment posits that each of us behaves in relationships in one of three distinct ways: • Anxious people are often preoccupied with their relationships and tend to worry about their partner's ability to love them back • Avoidant people equate intimacy with a loss of independence and constantly try to minimize closeness. • Secure people feel comfortable with intimacy and are usually warm and loving. Attached guides readers in determining what attachment style they and their mate (or potential mate) follow, offering a road map for building stronger, more fulfilling connections with the people they love.

Since September 11, Western governments have legitimized and empowered "nonviolent Islamists" as representatives of Islam for all Muslims in the West, an approach that has worried Muslim moderates. Citizen Islam addresses the implications of this approach. The book opens with an overview of the theology and history of Islam, to show that violence and intolerance are not fundamental aspects of the religion. It then explains the growth of Islamism in Europe and in the United States before suggesting that both are finally beginning to recognize the threat posed by nonviolent Islamists. Lastly, it outlines steps that Western and Muslims leaders can take to strengthen moderate Islam and counter the threat of Islamism. Written by Zeyno Baran, a Turkish-born Muslim, Citizen Islam sheds a sharp light on Muslim communities in the West. It concludes that there is much that Western governments can still do to reverse the spread of Islamism. But they must act quickly.

This is a fascinating, well illustrated and thoroughly documented response to the relentless anti-Christian propaganda that has been generated by Muslin and Marxist groups and by Hollywood film makers. As Karl Marx declared: "The first battlefield is the re-writing of History " "Peter knows first hand the nature of the enemy the West is facing and exposes it brilliantly in this book on Islam. He begins by documenting the close relationship between Islam and slavery and then chapter by chapter reveals the terrible cost of thirteen centuries of Islamic invasion, conquest and brutalisation. This is a book that every Christian should read and pass along to friends; and one that every home-schooling family should require as part of their children's curriculum." Dr. Brian M. Abshire "Dr. Peter Hammond cuts through layers of misinformation and uncovers astonishing historical facts and details long buried by Islamic revisionists. You'll find out their real agenda for tomorrow by discovering what they actually did yesterday - plus a field-tested plan of how to win Muslims to Christ." Rev. Bill Bathman "For the sake of this generation, and coming ones, someone had to do what Dr. Peter Hammond has just done; setting the record straight on the different role players in the slave trade." Rev. Fano Sibisi "Slavery, Terrorism & Islam, is must reading to all those who want to find out the roots of the Terrorism that is threatening global security." Rev. Jeffreys Kayanga

“Part murder mystery and part mind-bending time-travel story. . . . Full of imagination” (Booklist). Say you’re a time traveler and you’ve already toured the entirety of human history. After a while, the world might lose a little of its luster. That’s why this time traveler celebrates his birthday partying with himself. Every year, he travels to an abandoned hotel in New York City in 2071, the hundredth anniversary of his birth, and drinks twelve-year-old Scotch (lots of it) with all the other versions of who he has been and who he will be. Sure, the party is the same year after year, but at least it’s one party where he can really, well, be himself. The year he turns thirty-nine, though, the party takes a stressful turn. Before he even makes it into the grand ballroom for a drink he encounters the body of his forty-year-old self, dead of a gunshot wound to the head. As the older versions of himself at the party point out, the onus is on him to figure out what went wrong—he has one year to stop himself from being murdered, or they’re all goners. As he follows clues that he may or may not have willingly left for himself, he discovers rampant paranoia and suspicion among his younger selves, and a frightening conspiracy among the Elders. Most complicated of all is a haunting woman, possibly named Lily, who turns up at the party this year—the first person he’s ever seen there besides himself. For the first time, he has something to lose. Here’s hoping he can save some version of his own life. “A clever enough premise that it could be straight out of a Philip K. Dick or Kurt Vonnegut novel.” —Pittsburgh Post-Gazette “A dark hybrid of Paul Auster and the film Memento, complete with a mysterious love interest . . . Best of all, however, is the evocation of mid-21st century New York as a melancholy, dilapidated place high in entropy, cluttered with ruined buildings, and weirdly infested with parrots.” —Toronto Star

He was known simply as the Blind Traveler -- a solitary, sightless adventurer who, astonishingly, fought the slave trade in Af-rica, survived a frozen captivity in Siberia, hunted rogue elephants in Ceylon, and helped chart the Australian outback. James Holman (1786-1857) became "one of the greatest wonders of the world he so sagaciously explored,"

triumphing not only over blindness but crippling pain, poverty, and the interference of well-meaning authorities (his greatest feat, a circumnavigation of the globe, had to be launched in secret). Once a celebrity, a bestselling author, and an inspiration to Charles Darwin and Sir Richard Francis Burton, the charismatic, witty Holman outlived his fame, dying in an obscurity that has endured -- until now. *A Sense of the World* is a spellbinding and moving rediscovery of one of history's most epic lives. Drawing on meticulous research, Jason Roberts ushers us into the Blind Traveler's uniquely vivid sensory realm, then sweeps us away on an extraordinary journey across the known world during the Age of Exploration. Rich with suspense, humor, international intrigue, and unforgettable characters, this is a story to awaken our own senses of awe and wonder.

Stoning. Slavery. Honour Killings. Homosexuality. In the context of Islam, these topics are frequently discussed but little understood. When debated, such emotive issues often spark heated argument rather than reasoned deliberation. In this lucid and carefully constructed collection of essays, feminist academic Dr Kecia Ali examines classical Muslim texts and tries to evaluate whether a just system of sexual ethics is possible within an Islamic framework. Seeking to avoid polemical argument, Ali inspects key themes such as consent and control, which are crucial to any understanding of either traditional Islamic sexual ethics or the possibilities for progressive transformation in these ideals. Suitable for undergraduates and the interested reader alike, *Sexual Ethics and Islam* is an essential tool for understanding modern Islam in today's increasingly sexualised world.

In recent years Sufism has undergone something of a revival as a spiritual alternative to other manifestations of Islam. This book investigates the development of Sufism in Western societies, with a regional focus on North America and Europe. Exploring a number of issues relating to the dynamic tensions between religious globalization processes and specific sacred localities, this book looks at the formation of Sufi movements that have migrated from their place of origin to become global religious networks. Sufi groups are highly differentiated and often inaccessible, so the origins and development of Sufism in the West have not been widely studied. Employing a comparative approach based on regional fieldwork and case studies, this book addresses theoretical issues and gives a comprehensive analysis of distinct communities and the development of regional branches of Sufi orders, providing an international perspective on Sufism in the West. With contributions from well-known international experts on the topic, the book addresses Sufi orders in the context of the transnational networks in which they are operating and the constraints of the localities in which they live. This book will be of interest to scholars and students of religion, Islam and Sufism in particular.

'This extensively revised edition of *A Handbook of Comparative Social Policy* provides up-to-date and valuable insights on key concepts and issues, such as globalization, crime, diversity, housing, child poverty, gender inequality, and social policy regimes. To write about these topics, editor Patricia Kennett has gathered an excellent team of researchers, who deal with both the developing and the advanced industrial world. Students of comparative social policy would benefit from engaging with this illuminating Handbook.' Daniel Béland, JohnsonShoyama Graduate School of Public Policy, Canada The current context of social policy is one in which many of the old certainties of the past have been eroded. The predominantly inward-looking, domestic preoccupation of social policy has made way for a more integrated, international and outward approach to analysis which looks beyond the boundaries of the state. It is in this context that this Handbook brings together the work of key commentators in the field of comparative analysis in order to provide comprehensive coverage of contemporary debates and issues in cross-national social policy research. Organized around five themes, this thoroughly revised and updated second edition explores the contextual, conceptual, analytical and processual aspects of undertaking comparative social research. The contributions highlight specific areas of comparative social policy including child poverty and well-being, patterns of housing provision and housing inequalities, and social protection in East Asia as well as crime and criminology in a global context. The authors of the Handbook explore continuing and emerging themes as well as issues which are of particular relevance to understanding the contemporary social world. International in scope, this authoritative Handbook presents original cutting-edge research from leading specialists and will become an indispensable source of reference for anyone interested in comparative and international social research. It will also prove a valuable study aid for undergraduate and postgraduate students from a range of disciplines including social policy, sociology, politics, urban studies and public policy.

"Sharia, an Arabic word meaning "the right path," refers to traditional Islamic law. The Sharia comes from the Koran, the sacred book of Islam, which Muslims consider the actual word of God. The Sharia also stems from the Prophet Muhammad's teachings and interpretations of those teachings by certain Muslim legal scholars. Muslims believe that Allah

(God) revealed his true will to Muhammad, who then passed on Allah's commands to humans in the Koran. Since the Sharia originated with Allah, Muslims consider it sacred. Between the seventh century when Muhammad died and the 10th century, many Islamic legal scholars attempted to interpret the Sharia and to adapt it to the expanding Muslim Empire. The classic Sharia of the 10th century represented an important part of Islam's golden age. From that time, the Sharia has continued to be reinterpreted and adapted to changing circumstances and new issues. In the modern era, the influences of Western colonialism generated efforts to codify it."--Definition from Constitutional rights foundation. A NEW YORK TIMES NOTABLE BOOK • Ghana, eighteenth century: two half sisters are born into different villages, each unaware of the other. One will marry an Englishman and lead a life of comfort in the palatial rooms of the Cape Coast Castle. The other will be captured in a raid on her village, imprisoned in the very same castle, and sold into slavery. One of Oprah's Best Books of the Year and a PEN/Hemingway award winner, Homegoing follows the parallel paths of these sisters and their descendants through eight generations: from the Gold Coast to the plantations of Mississippi, from the American Civil War to Jazz Age Harlem. Yaa Gyasi's extraordinary novel illuminates slavery's troubled legacy both for those who were taken and those who stayed—and shows how the memory of captivity has been inscribed on the soul of our nation.

This book examines a series of questions associated with the increasing application and implications of biometrics in contemporary everyday life. In the wake of the events of 9/11, the reliance on increasingly sophisticated and invasive technologies across a burgeoning field of applications has accelerated, giving rise to the term 'biometric state'. This book explores how these 'virtual borders' are created and the effect they have upon the politics of citizenship and immigration, especially how they contribute to the treatment of citizens as suspects. Finally and most importantly, this text argues that the rationale of 'governing through risk' facilitates pre-emptory logics, a negligent attitude towards 'false positives', and an overall proliferation of borders and ubiquitous risk, which becomes integral to contemporary everyday life, far beyond the confined politics of national borders and frontiers. By focusing on specific sites, such as virtual borders in airports, trusted traveller programs like the NEXUS program and those delivered by airlines and supported by governmental authorities (TSA and CATSA respectively), this book raises critical questions about the emerging biometric state and its commitment and constitution vis-à-vis technology of 'governing through risk'. This book will be of interest to students of biopolitics, critical security, surveillance studies and International Relations in general.

Around the World in Seventy-Two Days (1890) is a travel narrative by American investigative journalist Nellie Bly. Proposed as a recreation of the journey undertaken by Phileas Fogg in Jules Verne's Around the World in Eighty Days (1873), Bly's journey was covered in Joseph Pulitzer's popular newspaper the New York World, inspiring countless others to attempt to surpass her record. At the time, readers at home were encouraged to estimate the hour and day of Bly's arrival, and a popular board game was released in commemoration of her undertaking. Embarking from Hoboken, noted investigative journalist Nellie Bly began a voyage that would take her around the globe. Bringing only a change of clothes, money, and a small travel bag, Bly travelled by steamship and train through England, France—where she met Jules Verne—Italy, the Suez Canal, Ceylon, Singapore, Hong Kong, and Japan. Sending progress reports via telegraph, she made small reports back home while recording her experiences for publication upon her return. Despite several setbacks due to travel delays in Asia, Bly managed to beat her estimated arrival time by several days despite making unplanned detours, such as visiting a Chinese leper colony, along the way. Unbeknownst to Bly, her trip had inspired Cosmopolitan's Elizabeth Brisland to make a similar circumnavigation beginning on the exact day, launching a series of copycat adventures by ambitious voyagers over the next few decades. Despite being surrounded by this air of popularity and competition, however, Bly took care to make her journey worthwhile, showcasing her skill as a reporter and true pioneer of investigative journalism. With a beautifully designed cover and professionally typeset manuscript, this edition of Nellie Bly's Around the World in Seventy-Two Days is a classic work of American travel literature reimagined for modern readers.

Shaikh Muhammad al-Tahir ibn Ashur is the most renowned Zaytuna Imam and one of the great Islamic scholars of the 20th century. The publication of this translation of Shaikh Ibn Ashur's Treatise on Maqasid al-Shari'ah is a breakthrough in studies on Islamic law in the English language. In this book, Ibn Ashur proposed Maqasid as a methodology for the renewal of the theory of Islamic law, which has not undergone any serious development since the era of the great imams. Ibn Ashur – quite courageously – also addressed the sensitive topic of the intents/Maqasid of Prophet Muhammad (SAAS) behind his actions and decisions. He introduced criteria to differentiate between the Prophetic traditions that were meant to be part of Islamic law and the Prophetic actions/ sayings that were meant to be for the sake of specific purposes such as political leadership, court judgment, friendly advice, and conflict resolution. But Ibn Ashur's most significant contribution in this book has been the development of new Maqasid by coining new, contemporary, terminology that were never formulated in traditional *usul al-fiqh*. For example, Ibn Ashur developed the theory of the 'preservation of lineage' into 'the preservation of the family system', the 'protection of true belief' into 'freedom of beliefs', etc. He also introduced the concepts of 'orderliness', 'natural disposition', 'freedom', 'rights', 'civility', and 'equality' as Maqasid in their own right, and upon which the whole Islamic law is based. This development opens great opportunities for Islamic law to address current and real challenges for Muslim societies and Muslim minorities.

Time travel is not just science fiction; it may actually be possible. Wolf draws on yoga and quantum physics to show that time is a flexible projection of mind. Cheating time, he says, is an ancient metaphysical idea from the Vedas having to do with moving through meditation to a place where time stands still.

"The Uncommercial Traveller is a collection of literary sketches and reminiscences written by Charles Dickens, published in 1860-1861. In 1859 Dickens founded a new journal called All the Year Round and the Uncommercial Traveller articles would be among his main contributions. He seems to have chosen the title and persona of the Uncommercial Traveller as a result of a speech he gave on 22 December 1859 to the Commercial Travellers' School London in his role as honorary chairman and treasurer. The persona sits well with a writer who liked to travel, not only as a tourist, but also to research and report what he found visiting Europe, America and giving book readings throughout Britain. He did not seem content to rest late in his career when he had attained wealth and comfort and continued travelling locally, walking the streets of London in the mould of the flâneur, a 'gentleman stroller of city streets'. He often suffered from insomnia and his night-time wanderings gave him an insight into some of the hidden aspects of Victorian London, details of which he also incorporated into his novels."

Irish Travellers have never enjoyed a higher profile, at home and abroad, for good reasons and bad. On the one hand are the positive stories like the success of boxers such as John Joe Nevin and Tyson Fury, the popularity of Big Fat Gypsy Wedding and Paddy Doherty's victory on Celebrity Big Brother. On the other are controversial news stories such as the Dale Farm stand-off and the recent convictions for slavery. Gypsy Empire delves into the heart of Traveller life, focusing on three aspects that have coloured perceptions of Travellers among the wider community: family feuds, bare-knuckle fights and trading. Many Irish Travellers are driven by the need to prove their status among their own, a powerful instinct epitomised by those who engage in brutal bare-knuckle fights. These bouts are fuelled by family feuds which sometimes erupt in vicious acts of violence. We meet many colourful characters, among them some of the world's most prolific and gifted criminals, their self-reliance providing an edge over other crime gangs. This is a golden era for the Traveller clans which are expanding and growing like never before. Gypsy Empire takes the reader inside the hidden world of Irish Travellers.

A wise, passionate account of the pleasures of traveling solo In our hectic, hyperconnected lives, many people are uncomfortable with the prospect of solitude. Yet a little time to ourselves can be an opportunity to slow down, savor, and try new things, especially when traveling. Through on-the-ground reporting, insights from social science, and recounting the experiences of artists, writers, and innovators who cherished solitude, Stephanie Rosenbloom considers how traveling alone deepens appreciation for everyday beauty, bringing into sharp relief the sights, sounds, and smells that one isn't necessarily attuned to in the presence of company. Walking through four cities--Paris, Florence, Istanbul, and New York--and four seasons, Alone Time gives us permission to pause, to relish the sensual details of the world rather than hurtling through museums and uploading photos to Instagram. In chapters about dining out, visiting museums, and pursuing knowledge, we begin to see how the moments we have to ourselves--on the road or at home--can be used to enrich our lives. Rosenbloom's engaging and elegant prose makes Alone Time as warmly intimate an account as the details of a trip shared by a beloved friend--and will have its many readers eager to set off on their own solo adventures.

This volume presents an original commentary for Al-Tadhkirah (The Memorandum), a legal primer for Islamic Law according to the later scholars of the Shafi'i school by Ibn al-Mulaqqin, an Egyptian scholar who died in 804AH/1401CE. The commentary introduces essential evidence for the core issues of Islamic Law from its primary sources (the Quran, Sunnah, legal analogy, and scholarly consensus). The commentary is based on Ibn al-Mulaqqin's legal commentaries (Sharh Mukhtasar al-Tabrizi, Khul'at al-fatwa, and Ujlat al-mu'taj) and works on legal hadiths (Tu'fat al-mu'taj, Mukhtasar al-Badr al-munir, and Al-Badr al-munir). The Evident Memorandum helps explain why Islamic Law includes specific topics and the essential evidence behind the Shafi'i school's opinion. It will be most beneficial to readers who are already familiar with Islamic Law and jurisprudence.
