

Textbook On International Law Martin Dixon

Offering a more accessible alternative to casebooks and historical commentaries, *Law Among Nations* explains issues of international law by tracing the field's development and stressing key principles and processes. This comprehensive text eliminates the need for multiple books by combining discussions of theory and state practice with excerpts from landmark cases. Renowned for its rigorous approach and clear explanations, *Law Among Nations* remains the gold standard for undergraduate introductions to international law. **Learning Goals** Trace the development of International Law through key principles and processes. Illustrate important issues and theories using excerpts from landmark cases.

This book examines one of the most emblematic cases of lawfare today: the criminal prosecution of former Brazilian President Lula. The authors argue that lawfare is not just a slogan or a game at the service of any one political ideology. Rather, it has to do with a complex, multifaceted phenomenon that should be carefully reflected upon in modern constitutional democracies, given that it is able to demolish majority rule and the rule of law. They contend it is the strategic use of the law with the purpose of delegitimizing, harming or annihilating an enemy. The literature specializing in the subject tends to alternate between analysis of only one aspect of the phenomenon or consists of extensive case studies. In order to fill this gap, this book revisits the subject and offers a sophisticated theoretical approach to lawfare, in an unprecedented combination of theory of war and theory of law. The book will be of interest to students, researchers and policy makers working in the areas of public law, international law, procedural law, anthropology of law and sociology of law, as well as political science and international relations.

International Law in the U.S. Legal System provides a wide-ranging overview of how international law intersects with the domestic legal system of the United States, and points out various unresolved issues and areas of controversy. Curtis Bradley explains the structure of the U.S. legal system and the various separation of powers and federalism considerations implicated by this structure, especially as these considerations relate to the conduct of foreign affairs. Against this backdrop, he covers all of the principal forms of international law: treaties, executive agreements, decisions and orders of international institutions, customary international law, and jus cogens norms. He also explores a number of issues that are implicated by the intersection of U.S. law and international law, such as treaty withdrawal, foreign sovereign immunity, international human rights litigation, war powers, extradition, and extraterritoriality. This book highlights recent decisions and events relating to the topic, including various actions taken during the Trump administration, while also taking into account relevant historical materials, including materials relating to the U.S. Constitutional founding. Written by one of the most cited international law scholars in the United States, the book is a resource for lawyers, law students, legal scholars, and judges from around the world.

In this concise introduction to international law, students gain a clear appreciation for how politics shapes the development of international law, and how international law shapes political relations between states. Throughout the book, Rochester takes this complex subject and makes it accessible with his vibrant, easy-to-read prose.

Clearly and accessibly written, this new text provides a valuable resource for undergraduate and postgraduate students of international law and covers subjects including the history, theories and sources of international law, as well as current areas of interest such as international criminal law.

This intellectually rigorous introduction to international law encourages readers to engage with multiple aspects of the topic: as 'law' directing and shaping its subjects; as a technique for governing the world of states and beyond statehood; and as a framework within which several critical and constructivist projects are articulated. The articles situate international law in its historical and ideological context and examine core concepts such as sovereignty, jurisdiction and the state. Attention is also given to its operation within international institutions and in dispute settlement, and a separate section is devoted to international law's 'projects': protecting human rights, eradicating poverty, the conservation of resources, the regulation of international trade and investment and the establishment of international order. The diverse group of contributors draws from disciplinary orientations ranging from positivism to postmodernism to ensure that this book is informed theoretically and politically, as well as grounded in practice.

Never HIGHLIGHT a Book Again! Virtually all of the testable terms, concepts, persons, places, and events from the textbook are included. Cram101 Just the FACTS101 studyguides give all of the outlines, highlights, notes, and quizzes for your textbook with optional online comprehensive practice tests. Only Cram101 is Textbook Specific. Accompanys: 9780199208180 .

The definitive and authoritative international law text, updated to reflect key case law, international practice and treaty developments.

This anthology brings together selections representative of the principal approaches to international legal theory. The volume is arranged according to the various theoretical concepts, and includes works from prominent authors like Hugo Grotius, H.L.A. Hart, Robert O. Keohane, Stephen Krasner, David Kennedy, Cristine Chinkin, and Hilary Charlesworth. The introductory notes to each chapter include definitions of key terms, fundamental assumptions, and a survey of the objectives of the particular theoretical approach. The book concludes with an appraisal of the present status of international legal theory in international law and political science.

In this thoroughly revised and updated second edition, Mariana Mota Prado and Michael J. Trebilcock offer a succinct and readable introduction to the main concepts and debates in the field of law and development. They examine the role of legal systems and institutions, investigate perceptions around what laws and legal arrangements encourage and facilitate development, and probe the issues arising in both private law and public law as well as in international economic relations. Written with the insight of two top experts in the field, this Advanced Introduction covers the most recent trends in law and development research and highlights areas that remain underexplored.

This is part of a ten volume set of reference books offering authoritative and engaging critical overviews of the state of political science. This work explores the business end of politics, where theory meets practice in the pursuit of public good.

This innovative textbook introduces the legal concepts, regimes and actors that regulate international business transactions. The book guides readers through the major aspects of international business law using state-of-the-art teaching techniques and offers comprehensive coverage on key treaties, legal aspects of international commerce and the regulation of global trade and investment.

This book provides a comprehensive introduction to international human rights -- international human rights law, why international human rights have increasingly risen to world prominence, what is being done about violations of human rights, and what might be done to further promote the cause of international human rights so that everyone may one day have their rights respected regardless of who they are or where they live. It explains: how the concept of international human rights has developed over time the variety of types of human rights (civil-political rights, economic-social rights, as well as a delineation of war crimes) empirical findings from statistical research on human rights institutional efforts to promote human rights an extensive listing of international human rights agreements identification of recent prosecutions of war criminals in domestic and international tribunals ongoing efforts to promote human rights through international aid programs the newest dimensions in the field of human rights (gay rights, animal rights, environmental rights). Richly illustrated throughout with case studies, controversies, court cases, think points, historical examples, biographical statements, and suggestions for further reading, International Human Rights is the ideal introduction for all students of human rights. The book will also be useful for human rights activists to learn how and where to file human rights complaints in order to bring violators to justice. The new edition is fully updated and includes new material on: the Obama presidency the Arab Spring and its aftermath the workings of the International Criminal Court quantitative analyses of human rights war crimes.

Invaluable to students and those approaching the subject for the first time, An Introduction to International Relations, Second Edition provides a comprehensive and stimulating introduction to international relations, its traditions and its changing nature in an era of globalisation. Thoroughly revised and updated, it features chapters written by a range of experts from around the world. It presents a global perspective on the theories, history, developments and debates that shape this dynamic discipline and contemporary world politics. Now in full-colour and accompanied by a password-protected companion website featuring additional chapters and case studies, this is the indispensable guide to the study of international relations.

The field of comparative constitutional law has grown immensely over the past couple of decades. Once a minor and obscure adjunct to the field of domestic constitutional law, comparative constitutional law has now moved front and centre. Driven by the global spread of democratic government and the expansion of international human rights law, the prominence and visibility of the field, among judges, politicians, and scholars has grown exponentially. Even in the United States, where domestic constitutional exclusivism has traditionally held a firm grip, use of comparative constitutional materials has become the subject of a lively and much publicized controversy among various justices of the U.S. Supreme Court. The trend towards harmonization and international borrowing has been controversial. Whereas it seems fair to assume that there ought to be great convergence among industrialized democracies over the uses and functions of commercial contracts, that seems far from the case in constitutional law. Can a parliamentary democracy be compared to a presidential one? A federal republic to a unitary one? Moreover, what about differences in ideology or national identity? Can constitutional rights deployed in a libertarian context be profitably compared to those at work in a social welfare context? Is it perilous to compare minority rights in a multi-ethnic state to those in its ethnically homogeneous counterparts? These controversies form the background to the field of comparative constitutional law, challenging not only legal scholars, but also those in other fields, such as philosophy and political theory. Providing the first single-volume, comprehensive reference resource, the 'Oxford Handbook of Comparative Constitutional Law' will be an essential road map to the field for all those working within it, or encountering it for the first time. Leading experts in the field examine the history and methodology of the discipline, the central concepts of constitutional law, constitutional processes, and institutions - from legislative reform to judicial interpretation, rights, and

emerging trends.

International Law presents a student-focused approach to the subject; clearly written with non-native English-speaking students in mind, a range of learning features highlight the areas of debate and encourage students to engage critically with key disputes.

Textbook on International Law Oxford University Press

Drawing together key documents, case law, reports and other essential materials, International Humanitarian Law offers students, lecturers and practitioners an accessible and critically informed account of the theory, law and practice of international humanitarian law. Providing comprehensive, thematic and targeted coverage of national and international cases and materials, this book successfully balances doctrine with practical application to help students understand how the theories are applied in practice and navigate through jurisprudence with ease. Employing a critical and targeted commentary throughout, this book also helps students to better understand the implications of the law and the challenges facing international humanitarian law today including: cyber war, detention, direct participation in hostilities, human rights in armed conflict and terrorism. Suitable for advanced undergraduate and postgraduate students and practitioners, International Humanitarian Law offers a thematic and comprehensive treatment of the subject.

Fully updated edition offers coverage of new topics and a more student-friendly design, while retaining the original style and features.

The focus of this law school casebook is on constitutional law as it relates to the conduct of foreign relations, primarily with that subfield dealing with the "separation of powers." Foreign relations law refers to the rules, principles, practices and procedures which structure the formation and execution of U.S. foreign policy, including its participation in international law and institutions.

International Human Rights and Humanitarian Law: Treaties, Cases, and Analysis introduces the reader to the international legal instruments and case law governing the substantive and procedural dimensions of international human rights and humanitarian law, including economic, social, and cultural rights. The book, which was originally published in 2006, also discusses the history and organisational structure of human rights and humanitarian law enforcement mechanisms. A chapter is devoted to the issues surrounding the incorporation of international law into U.S. law, including principles of constitutional and statutory interpretation, conflict rules, and the self-execution doctrine. Questions and comments sections provide critical analyses of issues raised in the materials. The last chapter addresses theoretical issues facing contemporary international human rights and humanitarian law and its enforcement.

Cases & Materials on International Law is a topical and engaging companion for study, offering broad coverage on public international law and placing disputes directly within the context of contemporary debate. The book contains the essential cases and materials that students need in order to fully understand and analyse the international legal system, drawing on a truly global range of jurisdictions and sources. Expert author commentary and notes place selected extracts within the wider legal framework and explain the complexities of the principles of law to students. The sixth edition includes expanded discussion of developing areas, including UN resolutions on climate change and international environmental law, new material from the International Law Commission, and coverage of major events, such as the annexation of Crimea, the legal context for Scottish independence and the UK's exit from the European Union, and the United Nations Security Council's Resolution on Malaysia Airlines MH17. The 'Textbook on International Law' provides a concise and accessible exposition of the key areas of international law for the student. This edition has been updated to include new material on the use of force, the International Criminal Court, and terrorism.

Sixth edition of the hugely successful, internationally recognised textbook on global public

health and epidemiology comprehensively covering the scope, methods, and practice of the discipline.

Modern Land Law offers a lively and thought-provoking account of a subject that remains at the heart of our legal system. Dispelling any apprehension about the subject's formidability from the outset, this compact textbook provides an absorbing and exact analysis of all the key legal principles relating to land. Written with students firmly in mind, the principal features of this textbook include:

- a clear introduction to every chapter which frames each topic in its wider context;
- corresponding chapter summaries which help to consolidate learning and encourage reflection;
- the use of tables and diagrams to aid understanding of complicated topics;
- a friendly two-color text design which complements Martin Dixon's comprehensible and engaging writing;
- an updated companion website which supports this textbook with a fully customizable testbank for lecturers; self-test questions and practice exam-style questions for students as well as podcasts to keep students updated with new cases, important decisions and other newsworthy issues relating to land law.

This 9th edition has been thoroughly revised and updated to take into account key developments in the law in the light of the Law Commission's recommendations on easements and covenants, as well as the increased impact of the HRA 1998 on case law. All major recent decisions and judgments will be incorporated alongside a discussion of proposals for reform and new legislation. Modern Land Law is one of the most current and reliable textbooks available on land law today.

One of Time Magazine's Top 100 Inventors in History shares an insider's story of the cellphone, how it changed the world—and a view of where it's headed. While at Motorola in the 1970s, wireless communications pioneer Martin Cooper invented the first handheld mobile phone. But the cellphone as we know it today almost didn't happen. Now, in *Cutting the Cord*, Cooper takes readers inside the stunning breakthroughs, devastating failures, and political battles in the quest to revolutionize—and control—how people communicate. It's a dramatic tale involving brilliant engineers, government regulators, lobbyists, police, quartz crystals, and a horse. Industry skirmishes sparked a political war in Washington to prevent a monopolistic company from dominating telecommunications. The drama culminated in the first-ever public call made on a handheld, portable telephone—by Cooper himself. The story of the cell phone has much to teach about innovation, strategy, and management. But the story of wireless communications is far from finished. This book also relates Cooper's vision of the future. From the way we work and the way children learn to the ways we approach medicine and healthcare, advances in the cellphone will continue to reshape our world for the better.

"Islamic Law and International Law is a comprehensive examination of differences and similarities between the Islamic legal tradition and international law, especially in the context of dispute settlement. Sharia embraces a unique logic and culture of justice--based on nonconfrontational dispute resolution--as

taught by the Quran and the Prophet Muhammad. This book explains how the creeds of Islamic dispute resolution shape the Islamic milieu's views of international law. Is the Islamic legal tradition ab initio incompatible with international law, and how do states of the Islamic milieu view international courts, mediation, and arbitration? Islamic law constitutes an important part of the domestic legal system in many states of the Islamic milieu--Islamic law states--displacing secular law in state governance and affecting these states' contemporary international dealings. The book analyzes constitutional and subconstitutional laws in Islamic law states. The answer to the "Islamic law-international law nexus puzzle" lies in the diversity of how secular laws and religious laws fuse in domestic legal systems across the Islamic milieu. These states are not Islamic to the same degree or in the same way. Thus, different international conflict management methods appeal to different states, depending on each one's domestic legal system. The main claim of the book is that in many instances the Islamic legal tradition points in one direction while Western-based, secularized international law points in another direction. This conflict is partially softened by the reality that the Islamic legal tradition itself has elements fundamentally compatible with modern international law. Islamic legal tradition, international law, sharia settlement, peaceful dispute resolution"--

Illustrating the scope of this fascinating and wide-reaching subject to the student, this clear and concise text gives a broad introduction to international human rights law. Coverage includes regional systems of protection, the role of the UN, and a variety of substantive rights. The author skilfully guides students through the complexities of the subject, and then prepares them for further study and research. Key cases and areas of debate are highlighted throughout, and a wealth of references to cases and further readings are provided at the end of each chapter.

The Oxford Handbook of International Legal Theory provides an accessible and authoritative guide to the major thinkers, concepts, approaches, and debates that have shaped contemporary international legal theory. The Handbook features 48 original essays by leading international scholars from a wide range of traditions, nationalities, and perspectives, reflecting the richness and diversity of this dynamic field. The collection explores key questions and debates in international legal theory, offers new intellectual histories for the discipline, and provides fresh interpretations of significant historical figures, texts, and theoretical approaches. It provides a much-needed map of the field of international legal theory, and a guide to the main themes and debates that have driven theoretical work in international law. The Handbook will be an indispensable reference work for students, scholars, and practitioners seeking to gain an overview of current theoretical debates about the nature, function, foundations, and future role of international law.

The Routledge Handbook of International Human Rights Law provides the definitive global survey of the discipline of international human rights law. Each

chapter is written by a leading expert and provides a contemporary overview of a significant area within the field. As well as covering topics integral to the theory and practice of international human rights law the volume offers a broader perspective through examinations of the ways in which human rights law interacts with other legal regimes and other international institutions, and by addressing the current and future challenges facing human rights. This highly topical collection of specially commissioned papers is split into four sections: The nature and evolution of international human rights law discussing the origins, theory and practice of the discipline. Interaction of human rights with other key regimes and bodies including the interaction of the discipline with international economic law, international humanitarian law, and development, as well as other legal regimes. Evolution and prospects of regional approaches to human rights discussing the systems of Europe, the Americas, Africa and South East Asia, and their relationship to the United Nations treaty bodies. Key contemporary challenges including non-State actors, religion and human rights, counter-terrorism, and enforcement and remedies. Providing up-to-date and authoritative articles covering key aspects of international human rights law, this book work is an essential work of reference for scholars, practitioners and students alike. Chapter 35 of this book is freely available as a downloadable Open Access PDF at www.routledgehandbooks.com. It has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 3.0 license.

The 5th edition of Public International Law continues the book's accessible, student-friendly tradition with a writing style that is both conversational and easy to read. Features designed to support learning include highlighted key cases, introductory chapter overviews, and end-of-chapter aides-mémoire and recommended further reading. Public International Law is unique in that it is both a textbook and a casebook. The facts of each case and the details of the court or tribunal's decision are succinctly set out, followed by detailed commentary from the author, and, where appropriate, a brief explanation of subsequent events. The book covers all the major areas of public international law, and takes account of new developments relating to the codification of international law by the International Law Commission, State practice, and decisions of international courts and tribunals, in particular those of the International Court of Justice. Features new to this edition: A new dedicated chapter on the law of the sea Diagrammatic aides-mémoire at the end of each chapter Expanded coverage of the US approach to international law via its courts and executive. This book is an ideal learning tool for students of law or political science and provides a clear and straight-forward overview for anyone with an interest in the subject. Alina Kaczorowska-Ireland is Professor of International and EU Law at the University of the West Indies, Cave Hill Campus, Barbados. She is also author of the Routledge textbook, EU Law.

A concise account of international law by an experienced practitioner, this book explains how states and international organisations, especially the United

Nations, make and use international law. The nature of international law and its fundamental concepts and principles are described. The difference and relationship between various areas of international law which are often misunderstood (such as diplomatic and state immunity, and human rights and international humanitarian law) are clearly explained. The essence of new specialist areas of international law, relating to the environment, human rights and terrorism are discussed. Aust's clear and accessible style makes the subject understandable to non-international lawyers, non-lawyers and students. Abundant references are provided to sources and other materials, including authoritative and useful websites.

This business classic features straight-talking advice you'll never hear in school. Featuring a new foreword by Ariel Emanuel and Patrick Whitesell Mark H. McCormack, one of the most successful entrepreneurs in American business, is widely credited as the founder of the modern-day sports marketing industry. On a handshake with Arnold Palmer and less than a thousand dollars, he started International Management Group and, over a four-decade period, built the company into a multimillion-dollar enterprise with offices in more than forty countries. To this day, McCormack's business classic remains a must-read for executives and managers at every level. Relating his proven method of "applied people sense" in key chapters on sales, negotiation, reading others and yourself, and executive time management, McCormack presents powerful real-world guidance on • the secret life of a deal • management philosophies that don't work (and one that does) • the key to running a meeting—and how to attend one • the positive use of negative reinforcement • proven ways to observe aggressively and take the edge • and much more Praise for What They Don't Teach You at Harvard Business School "Incisive, intelligent, and witty, What They Don't Teach You at Harvard Business School is a sure winner—like the author himself. Reading it has taught me a lot."—Rupert Murdoch, executive chairman, News Corp, chairman and CEO, 21st Century Fox "Clear, concise, and informative . . . Like a good mentor, this book will be a valuable aid throughout your business career."—Herbert J. Siegel, chairman, Chris-Craft Industries, Inc. "Mark McCormack describes the approach I have personally seen him adopt, which has not only contributed to the growth of his business, but mine as well."—Arnold Palmer "There have been what we love to call dynasties in every sport. IMG has been different. What this one brilliant man, Mark McCormack, created is the only dynasty ever over all sport."—Frank Deford, senior contributing writer, Sports Illustrated

The fifth edition of this widely used textbook combines narrative explanatory sections that set forth the basic law together with cases, treaties, international documents, questions and problems. Epps focuses on the central problems of international law and how it operates and encourages students to work through a number of questions and problems that are presented in a variety of international contexts. The book's coverage is comprehensive, including recent materials and

cases on sources, treaties, jurisdiction, immunities, extradition, the law of the sea, environmental law, international courts and tribunals, the status of international entities, human rights, international criminal law, terrorism, and the laws of war. There is also a set of power point slides to accompany the text distributed free to any faculty member who adopts the book for a course. Faculty will find that the questions posed after every case, or other materials, provide a very useful template for getting students to focus on the essential meaning and implications of the cases and materials. The problems are designed to test students' abilities to combine what they have learned throughout a chapter to come up with a comprehensive answer.

This title sets the most significant international law cases in their social, political, and historical context. It showcases 13 essays by leading international law experts. The essays are organized in three groupings: stories about the development of international human rights law, stories about the use of international law in the U.S. legal system, and stories about international law's impact on interstate politics and the global economy. Experienced international law scholars, teachers, and practitioners will discover valuable new insights, and readers new to international law will find that the book quickly immerses them in the most significant developments in the field.

"Textbook on International Law offers students concise coverage of all the core topics studied on international law courses, providing students new to the subject with a complete and accurate introduction within a manageable length."--BOOK JACKET.

Key Facts is the essential revision series for anyone studying law, including LLB, ILEX and post-graduate conversion courses. The Key Facts series provides the simplest and most effective way for you to absorb and retain the essential facts needed to pass your exams effortlessly. Key features include: * Diagrams at the start of chapters to summarise the key points * Structured heading levels to allow for clear recall of the main facts * Charts and tables to break down more complex information New to these editions is an improved text design making the books easier to read and the facts easier to retain. Key Facts books are supported by the website www.UnlockingTheLaw.co.uk where you will find extensive revision materials including MCQs and Key Q&As.

Political Ideologies provides a broad-ranging introduction to both the classical and contemporary political ideologies. Adopting a global outlook, it introduces readers to ideologies' increasingly global reach and the different national versions of these ideologies. Importantly, ideologies are presented as frameworks of interpretation and political commitment, encouraging readers to evaluate how ideologies work in practice, the problematic links between ideas and political action, and the impact of ideologies. Regular learning features encourage readers to think critically about ideologies, and view them as competing and contestable ways of interpreting the world. A unique "stop and think" feature calls for readers to reflect on their own ideological beliefs. Online Resources: Political

Ideologies is accompanied by comprehensive online resources, to support political ideology courses. For students: * Further reading and resources for each chapter to help students to undertake further research and deepen their understanding and critical thinking; * Regular updates help students to keep up to date with ideologies as frameworks of understanding and political action in the real world. For lecturers: * Indicative answers to questions in the book provide a framework for approaching these; * Powerpoint slides to support each chapter, providing an overview and key points to help with planning; * Further discussion and debate ideas, for use in seminars, encourage big picture thinking about the relationships between ideologies.

We are working with Cambridge International Examinations to gain endorsement for this Student's Book, which offers content in the same order as the latest syllabus and insight from expert authors on every paper. - Ensures relevance with up-to-date case examples from around the world - Gets students focusing on key elements and thinking about Law in the right way with expert tips throughout - Prepares students for assessment with examination questions
