The Color Of Law A Forgotten History Of How Our Government Segregated America

The Color of Law: A Forgotten History of How Our Government Segregated America by Richard Rothstein - Book Summary - Abbey Beathan (Disclaimer: This is NOT the original book.) An exploration of the housing policy in United States and the hidden truth about how cities are divided. It was commonly believed that cities were divided by de facto segregation, through individual prejudices like income differences and actions of private institutions. However, Richard Rothstein discovered the brutal truth, the fact that cities are divided by de jure segregation, which means that local, state and federal governments passed laws that promoted the discriminatory patterns that are present even to this date. (Note: This summary is wholly written and published by Abbey Beathan. It is not affiliated with the original author in any way) "The challenge is more difficult because low-income African Americans today confront not only segregation but also the income stagnation and blocked mobility faced by all Americans in families with low or moderate incomes." - Richard Rothstein A chronicle of an untold story that began in the 1920s and still affecting African American citizens today. Explicit

of success is the way of continuous pursuit of knowledge" - Abbey Beathan

Race in the Shadow of Law offers a critical legal analysis of European responses to institutional racism. It draws connections between contemporary legal knowledge practices and colonial systems of thought, arguing that many people of colour experience the law as a part of a racial problem, rather than a solution, to racial injustice. Based on a critical legal ethnography of anti-racism work in Europe, and with an emphasis on the German context, the book positions Black and anti-racist perspectives at the centre, rather than the margins, of critically thinking through the intersection of race and law. Combining this ethnography with comparative legal analysis, discourse analysis and critical race theory, the book develops a critical discussion of the European legal frameworks aimed at regulating racism, and particularly institutional racism, in policy and policing. In linking this critique to the transformative potential of social movements, however, it goes on to examine the strategic and creative possibility of disrupting conventional modes of engaging, and resisting, law.

segregation, Marcia Chatelain's Franchise investigates the complex interrelationship between black communities and America's largest, most popular fast food chain. Taking us from the first McDonald's drive-in in San Bernardino to the franchise on Florissant Avenue in Ferguson, Missouri, in the summer of 2014, Chatelain shows how fast food is a source of both power—economic and political—and despair for African Americans. As she contends, fast food is, more than ever before, a key battlefield in the fight for racial justice.

Private schools always provide a better education than public schools. Or do they? Inner-city private schools, most of which are Catholic, suffer from the same problems neighboring public schools have including large class sizes, unqualified teachers, outdated curricula, lack of parental involvement and stressful family and community circumstances. Straightforward and authoritative, All Else Equal challenges us to reconsider vital policy decisions and rethink the issues facing our current educational system.

CARNEGIE MEDAL • “This is the book I’ve been waiting for.”—Ibram X. Kendi, #1 New York Times bestselling author of *How to Be an Antiracist* Heather McGhee’s specialty is the American economy—and the mystery of why it so often fails the American public. From the financial crisis of 2008 to rising student debt to collapsing public infrastructure, she found a root problem: racism in our politics and policymaking. But not just in the most obvious indignities for people of color. Racism has costs for white people, too. It is the common denominator of our most vexing public problems, the core dysfunction of our democracy and constitutive of the spiritual and moral crises that grip us all. But how did this happen? And is there a way out? McGhee embarks on a deeply personal journey across the country from Maine to Mississippi to California, tallying what we lose when we buy into the zero-sum paradigm—the idea that progress for some of us must come at the expense of others. Along the way, she meets white people who confide in her about losing their homes, their dreams, and their shot at better jobs to the toxic mix of American racism and greed. This is the story of how public goods in this country—from parks and pools to functioning schools—have become private luxuries; of how unions collapsed, wages stagnated, and inequality increased; and of how this country, unique among the world’s advanced economies, has thwarted

Download Free The Color Of Law A Forgotten History Of How Our Government Segregated America

universal healthcare. But in unlikely places of worship and work, McGhee finds proof of what she calls the Solidarity Dividend: the benefits we gain when people come together across race to accomplish what we simply can't do on our own. *The Sum of Us* is not only a brilliant analysis of how we arrived here but also a heartfelt message, delivered with startling empathy, from a black woman to a multiracial America. It leaves us with a new vision for a future in which we finally realize that life can be more than a zero-sum game.

“*All Her Little Secrets* is a brilliantly nuanced but powerhouse exploration of race, the legal system, and the crushing pressure of keeping secrets. Morris brings a vibrant and welcome new voice to the thriller space.” —Karin Slaughter, *New York Times* and international bestselling author In this fast-paced thriller, Wanda M. Morris crafts a twisty mystery about a black lawyer who gets caught in a dangerous conspiracy after the sudden death of her boss . . . A debut perfect for fans of Attica Locke, Alyssa Cole, Harlan Coben, and Celeste Ng, with shades of *How to Get Away with Murder* and John Grisham's *The Firm*. Everyone has something to hide... Ellice Littlejohn seemingly has it all: an Ivy League law degree, a well-paying job as a corporate attorney in midtown Atlanta, great friends, and a “for fun” relationship with a rich, charming executive, who just happens to be her white boss. But

Download Free The Color Of Law A Forgotten History Of How Our Government Segregated America

everything changes one cold January morning when Ellice arrives in the executive suite and finds him dead with a gunshot to his head. And then she walks away like nothing has happened. Why? Ellice has been keeping a cache of dark secrets, including a small-town past and a kid brother who's spent time on the other side of the law. She can't be thrust into the spotlight—again. But instead of grieving this tragedy, people are gossiping, the police are getting suspicious, and Ellice, the company's lone black attorney, is promoted to replace her boss. While the opportunity is a dream-come-true, Ellice just can't shake the feeling that something is off. When she uncovers shady dealings inside the company, Ellice is trapped in an impossible ethical and moral dilemma. Suddenly, Ellice's past and present lives collide as she launches into a pulse-pounding race to protect the brother she tried to save years ago and stop a conspiracy far more sinister than she could have ever imagined...

The Color Line provides a concise history of the role of race and ethnicity in the US, from the early colonial period to the present, to reveal the public policies and private actions that have enabled racial subordination and the actors who have fought against it. Focusing on Native Americans, African Americans, Asian Americans, and Latino Americans, it explores how racial subordination developed in the region, how it has been resisted and opposed, and

Download Free The Color Of Law A Forgotten History Of How Our Government Segregated America

how it has been sustained through independence, the abolition of slavery, the civil rights movement, and subsequent reforms. The text also considers the position of European immigrants to the US, interrogates relevant moral issues, and identifies persistent problems of public policy, arguing that all four centuries of racial subordination are relevant to understanding contemporary America and some of its most urgent issues. This book will be of interest to students and scholars of American history, the history of race and ethnicity, and other related courses in the humanities and social sciences.

NEW YORK TIMES BESTSELLER “I come from a family forged by tragedies and bound by a remarkable, unbreakable love,” Hunter Biden writes in this deeply moving memoir of addiction, loss, and survival. When he was two years old, Hunter Biden was badly injured in a car accident that killed his mother and baby sister. In 2015, he suffered the devastating loss of his beloved big brother, Beau, who died of brain cancer at the age of forty-six. These hardships were compounded by the collapse of his marriage and a years-long battle with drug and alcohol addiction. In *Beautiful Things*, Hunter recounts his descent into substance abuse and his tortuous path to sobriety. The story ends with where Hunter is today—a sober married man with a new baby, finally able to appreciate the beautiful things in life.

Chained up in the hold of a French warship, Lusignan's only hope of escape rests with his captor - Captain Paul. A man with a mysterious past, Captain Paul is transporting Lusignan to exile in the West Indies. Little does he know that his mission is a sham. His prisoner is an innocent man, framed because he fell in love with a Count's daughter. Once the truth is revealed, Paul and

Download Free The Color Of Law A Forgotten History Of How Our Government Segregated America

Lusignan return to France, determined to seek justice. Inspired by the real life of American Revolutionary War hero John Paul Jones, "Captain Paul" is a rollicking melodrama, packed with action and romance. A fine precursor to Dumas' later classics, it's especially recommended for fans of naval adventures, like C.S. Forester's "Hornblower" series. Alexandre Dumas (1802 - 1870) was a hugely popular 19th Century French writer. Born of mixed French and Haitian heritage, Dumas first rose to prominence in Paris as a playwright, but later gained international fame with his historical fiction. Often co-authored with other writers, these stories wove together swashbuckling adventure, romance, and real events from France's past. Among the best known are "The Three Musketeers", and its sequels "Twenty Years After", and "Le Vicomte de Bragelonne: Ten Years Later". Set across four decades, this trilogy follows the rise of the dashing D'Artagnan—from hot-headed soldier to trusted captain under Louis XIV. Dumas' other novels include "The Count of Monte Cristo" and "The Black Tulip". His works have been adapted into more than 200 movies, including The Man in the Iron Mask starring Leonardo DiCaprio.

Lauded by Ta-Nehisi Coates for his "brilliant" and "fine understanding of the machinery of government policy" (The Atlantic), Richard Rothstein has painstakingly documented how American cities, from San Francisco to Boston, became so racially divided. Rothstein describes how federal, state, and local governments systematically imposed residential segregation: with undisguised racial zoning, public housing that purposefully segregated

Download Free The Color Of Law A Forgotten History Of How Our Government Segregated America

previously mixed communities, subsidies for builders to create whites-only suburbs, tax exemptions for institutions that enforced segregation, and support for violent resistance to African Americans in white neighborhoods. He demonstrates that such policies still influence tragedies in places like Ferguson and Baltimore. Scholars have separately described many of these policies, but until now, no author has brought them together to explode the myth of de facto segregation arising from private prejudice or the unintended consequences of economic forces. Like *The New Jim Crow*, Rothstein's groundbreaking history forces us to face the obligation to remedy our unconstitutional past. *Sethe*, an escaped slave living in post-Civil War Ohio with her daughter and mother-in-law, is haunted persistently by the ghost of the dead baby girl whom she sacrificed, in a new edition of the Nobel Laureate's Pulitzer Prize-winning novel. Reader's Guide available. Reprint. 60,000 first printing.

Law and Society is a rapidly-growing interdisciplinary field that turns on its head the conventional, idealized view of the "Law" as a magisterial abstraction. Kitty Calavita's *Invitation to Law and Society* brilliantly brings to life the ways in which law shapes and manifests itself in the institutions and interactions of human society, while inviting the reader into conversations that introduce the field's dominant themes and most lively disagreements. Deftly interweaving scholarship with familiar personal examples, Calavita shows how scholars in the discipline are collectively engaged in a subversive exposé of law's public mythology. While surveying

Download Free The Color Of Law A Forgotten History Of How Our Government Segregated America

prominent issues and distinctive approaches to the use of the law in everyday life, as well as its potential as a tool for social change, this volume provides a view of law that is more real but just as compelling as its mythic counterpart. In a field of inquiry that has long lacked a sophisticated yet accessible introduction to its ways of thinking, *Invitation to Law and Society* will serve as an engaging and indispensable guide.

New York Times Bestseller • Notable Book of the Year • Editors' Choice Selection One of Bill Gates' "Amazing Books" of the Year One of Publishers Weekly's 10 Best Books of the Year Longlisted for the National Book Award for Nonfiction An NPR Best Book of the Year Winner of the Hillman Prize for Nonfiction Gold Winner • California Book Award (Nonfiction) Finalist • Los Angeles Times Book Prize (History) Finalist • Brooklyn Public Library Literary Prize This "powerful and disturbing history" exposes how American governments deliberately imposed racial segregation on metropolitan areas nationwide (New York Times Book Review).

Widely heralded as a "masterful" (Washington Post) and "essential" (Slate) history of the modern American metropolis, Richard Rothstein's *The Color of Law* offers "the most forceful argument ever published on how federal, state, and local governments gave rise to and reinforced neighborhood segregation" (William Julius Wilson). Exploding the myth of de facto segregation arising from private prejudice or the unintended consequences of economic forces, Rothstein describes how the American government systematically imposed residential segregation: with undisguised racial zoning;

public housing that purposefully segregated previously mixed communities; subsidies for builders to create whites-only suburbs; tax exemptions for institutions that enforced segregation; and support for violent resistance to African Americans in white neighborhoods. A groundbreaking, “virtually indispensable” study that has already transformed our understanding of twentieth-century urban history (Chicago Daily Observer), *The Color of Law* forces us to face the obligation to remedy our unconstitutional past.

The first comprehensive history of American Jewish philanthropy and its influence on democracy and capitalism For years, American Jewish philanthropy has been celebrated as the proudest product of Jewish endeavors in the United States, its virtues extending from the local to the global, the Jewish to the non-Jewish, and modest donations to vast endowments. Yet, as Lila Corwin Berman illuminates in *The American Jewish Philanthropic Complex*, the history of American Jewish philanthropy reveals the far more complicated reality of changing and uneasy relationships among philanthropy, democracy, and capitalism. With a fresh eye and lucid prose, and relying on previously untapped sources, Berman shows that from its nineteenth-century roots to its apex in the late twentieth century, the American Jewish philanthropic complex tied Jewish institutions to the American state. The government’s regulatory efforts—most importantly, tax policies—situated philanthropy at the core of its experiments to maintain the public good without trammeling on the private freedoms of individuals. Jewish philanthropic institutions

Download Free The Color Of Law A Forgotten History Of How Our Government Segregated America

and leaders gained financial strength, political influence, and state protections within this framework. However, over time, the vast inequalities in resource distribution that marked American state policy became inseparable from philanthropic practice. By the turn of the millennium, Jewish philanthropic institutions reflected the state's growing investment in capitalism against democratic interests. But well before that, Jewish philanthropy had already entered into a tight relationship with the governing forces of American life, reinforcing and even transforming the nation's laws and policies. The American Jewish Philanthropic Complex uncovers how capitalism and private interests came to command authority over the public good, in Jewish life and beyond. Renowned American sociologist William Julius Wilson takes a look at the social transformation of inner city ghettos, offering a sharp evaluation of the convergence of race and poverty. Rejecting both conservative and liberal interpretations of life in the inner city, Wilson offers essential information and a number of solutions to policymakers. *The Truly Disadvantaged* is a wide-ranging examination, looking at the relationship between race, employment, and education from the 1950s onwards, with surprising and provocative findings. This second edition also includes a new afterword from Wilson himself that brings the book up to date and offers fresh insight into its findings. "The Truly Disadvantaged should spur critical thinking in many quarters about the causes and possible remedies for inner city poverty. As policymakers grapple with the problems of an enlarged underclass they—as well as community leaders and all

Download Free The Color Of Law A Forgotten History Of How Our Government Segregated America

concerned Americans of all races—would be advised to examine Mr. Wilson's incisive analysis.”—Robert Greenstein, New York Times Book Review

"Whiteness pays. As *White by Law* shows, immigrants recognized the value of whiteness and sometimes petitioned the courts to be recognized as white. Haney Lopez argues for the centrality of law in constructing race."--Voice Literary Supplement

"*White by Law*'s thoughtful analysis of the prerequisite cases offers support for the fundamental critical race theory tenet that race is a social construct reinforced by law. Haney Lopez has blazed a trail for those exploring the legal and social constructions of race in the United States."--Berkeley Women's Law Journal

Lily white. White knights. The white dove of peace. White lie, white list, white magic. Our language and our culture are suffused, often subconsciously, with positive images of whiteness. Whiteness is so inextricably linked with the status quo that few whites, when asked, even identify themselves as such. And yet when asked what they would have to be paid to live as a black person, whites give figures running into the millions of dollars per year, suggesting just how valuable whiteness is in American society. Exploring the social, and specifically legal origins, of white racial identity, Ian F. Haney Lopez here examines cases in America's past that have been instrumental in forming contemporary conceptions of race, law, and

Download Free The Color Of Law A Forgotten History Of How Our Government Segregated America

whiteness. In 1790, Congress limited naturalization to white persons. This racial prerequisite for citizenship remained in force for over a century and a half, enduring until 1952. In a series of important cases, including two heard by the United States Supreme Court, judges around the country decided and defined who was white enough to become American. *White by Law* traces the reasoning employed by the courts in their efforts to justify the whiteness of some and the non-whiteness of others. Did light skin make a

One of our most prescient political observers provides a sobering account of how pitched battles over scarce resources will increasingly define American politics in the coming years—and how we might avoid, or at least mitigate, the damage from these ideological and economic battles. In a matter of just three years, a bitter struggle over limited resources has enveloped political discourse at every level in the United States. Fights between haves and have-nots over health care, unemployment benefits, funding for mortgage write-downs, economic stimulus legislation—and, at the local level, over cuts in police protection, garbage collection, and in the number of teachers—have dominated the debate. Elected officials are being forced to make zero-sum choices—or worse, choices with no winners. Resource competition between Democrats and Republicans has left each side determined to protect

Download Free The Color Of Law A Forgotten History Of How Our Government Segregated America

what it has at the expense of the other. The major issues of the next few years—long-term deficit reduction; entitlement reform, notably of Social Security, Medicare, and Medicaid; major cuts in defense spending; and difficulty in financing a continuation of American international involvement—suggest that your-gain-is-my-loss politics will inevitably intensify.

In 1863 black communities owned less than 1 percent of total U.S. wealth. Today that number has barely budged. Mehrsa Baradaran pursues this wealth gap by focusing on black banks. She challenges the myth that black banking is the solution to the racial wealth gap and argues that black communities can never accumulate wealth in a segregated economy.

Eager to change the world? Learn how you can have a greater social impact through your everyday purchases. The money we routinely spend on food, clothes, gifts, and even indulgences is an untapped superpower. What would happen if we slowed down to make more thoughtful decisions about what we buy? For "mom and pop" stores across the country, and artisan and agricultural communities around the world, every purchase matters. Consumers--whether individuals, small businesses, or corporations--are paying more attention than ever to how their goods are made; and retailers--large and small--are responding by investing in ethical and eco-friendly

Download Free The Color Of Law A Forgotten History Of How Our Government Segregated America

production. Yet figuring out which brands to support can feel overwhelming. Jane Mosbacher Morris has devoted her career to creating economic opportunities for vulnerable communities around the world, and in this valuable book, she shares her passion and insights on how we, as consumers, can create positive change too. Covering topics that range from why not all factories are evil, to how our morning coffee can be the easiest way for us to use our purchasing power for good, *Buy the Change You Want to See* makes us better informed consumers. Morris tells inspiring stories about how victims of human trafficking and natural disasters have been empowered by economic opportunity, and she offers practical ideas about how we can support these communities through our purchases--whether it comes to jewelry made from recycled materials in Haiti, sustainably grown and ethically sourced coffee and chocolate from farmers in some of the poorest regions of the world, or mass-produced jeans and shoes made in factories where workers are guaranteed decent working conditions and a fair wage.

Named one of the most important nonfiction books of the 21st century by Entertainment Weekly, Slate, Chronicle of Higher Education, Literary Hub, Book Riot, and Zora A tenth-anniversary edition of the iconic bestseller—"one of the most influential books of the past 20 years," according to the Chronicle of

Higher Education—with a new preface by the author “It is in no small part thanks to Alexander’s account that civil rights organizations such as Black Lives Matter have focused so much of their energy on the criminal justice system.” —Adam Shatz, London Review of Books Seldom does a book have the impact of Michelle Alexander’s *The New Jim Crow*. Since it was first published in 2010, it has been cited in judicial decisions and has been adopted in campus-wide and community-wide reads; it helped inspire the creation of the Marshall Project and the new \$100 million Art for Justice Fund; it has been the winner of numerous prizes, including the prestigious NAACP Image Award; and it has spent nearly 250 weeks on the New York Times bestseller list. Most important of all, it has spawned a whole generation of criminal justice reform activists and organizations motivated by Michelle Alexander’s unforgettable argument that “we have not ended racial caste in America; we have merely redesigned it.” As the Birmingham News proclaimed, it is “undoubtedly the most important book published in this century about the U.S.” Now, ten years after it was first published, The New Press is proud to issue a tenth-anniversary edition with a new preface by Michelle Alexander that discusses the impact the book has had and the state of the criminal justice reform movement today.

The New York Times best-selling book exploring the

counterproductive reactions white people have when their assumptions about race are challenged, and how these reactions maintain racial inequality. In this "vital, necessary, and beautiful book" (Michael Eric Dyson), antiracist educator Robin DiAngelo deftly illuminates the phenomenon of white fragility and "allows us to understand racism as a practice not restricted to 'bad people' (Claudia Rankine).

Referring to the defensive moves that white people make when challenged racially, white fragility is characterized by emotions such as anger, fear, and guilt, and by behaviors including argumentation and silence. These behaviors, in turn, function to reinstate white racial equilibrium and prevent any meaningful cross-racial dialogue. In this in-depth exploration, DiAngelo examines how white fragility develops, how it protects racial inequality, and what we can do to engage more constructively.

Widely heralded as a "masterful" (Washington Post) and "essential" (Slate) history of the modern American metropolis, Richard Rothstein's *The Color of Law* offers "the most forceful argument ever published on how federal, state, and local governments gave rise to and reinforced neighborhood segregation" (William Julius Wilson). Banning Black Gods is a global examination of the legal challenges faced by adherents of the most widely practiced African-derived religions in the twenty-first century, including Santeria/Lucumi, Haitian Vodou, Candomblé, Palo Mayombe, Umbanda, Islam, Rastafari, Obeah, and Voodoo. Examining court cases, laws, human rights reports, and related materials, Danielle N. Boaz argues that restrictions on African diaspora religious freedom constitute a unique and pervasive form of anti-Black discrimination. Emphasizing that these twenty-first-century cases and controversies are not a new phenomenon but rather a reemergence of colonial-era ideologies and patterns of racially motivated persecution, Boaz focuses each chapter on a particular

Download Free The Color Of Law A Forgotten History Of How Our Government Segregated America

challenge to Black religious freedom. She examines issues such as violence against devotees, restrictions on the ritual slaughter of animals, limitations on the custodial rights of parents, and judicial refusals to recognize these faiths as protected religions. Boaz introduces new issues that have never been considered as a question of religious freedom before—such as the right of Palo Mayombe devotees to possess remains of the dead—and she brings together controversies that have not been previously regarded as analogous, such as the right to wear headscarves and the right to wear dreadlocks in schools. Framing these issues in comparative perspective and focusing on transnational and transregional issues, Boaz advances our understanding of the larger human rights disputes that country-specific studies can overlook. Original and compelling, this important new book will be welcomed by students and scholars of African diaspora religions and discerning readers interested in learning more about the history of racial discrimination

Contemporary public policy assumes that the achievement gap between black and white students could be closed if only schools would do a better job. According to Richard Rothstein, "Closing the gaps between lower-class and middle-class children requires social and economic reform as well as school improvement. Unfortunately, the trend is to shift most of the burden to schools, as if they alone can eradicate poverty and inequality." In this book, Rothstein points the way toward social and economic reforms that would give all children a more equal chance to succeed in school.

This book features: a summary of numerous studies linking school achievement to health care quality, nutrition, childrearing styles, housing stability, parental economic security, and more ; a look at erroneous and misleading data that underlie commonplace claims that some schools "beat the demographic odds and therefore any school can close the achievement gap if only it adopted proper practices." ; and an analysis of how the over-emphasis of standardized tests in federal law obscures the true achievement gap and makes narrowing it more difficult.

Since it was first published in 1920, *The Black Man's Burden* has been widely recognized as a prime source of education and influence in the field of African history.

"Capital is the defining feature of modern economies, yet most people have no idea where it actually comes from. What is it, exactly, that transforms mere wealth into an asset that automatically creates more wealth? *The Code of Capital* explains how capital is created behind closed doors in the offices of private attorneys, and why this little-known fact is one of the biggest reasons for the widening wealth gap between the holders of capital and everybody else. In this revealing book, Katharina Pistor argues that the law selectively "codes" certain assets, endowing them with the capacity to protect and produce

private wealth. With the right legal coding, any object, claim, or idea can be turned into capital - and lawyers are the keepers of the code. Pistor describes how they pick and choose among different legal systems and legal devices for the ones that best serve their clients' needs, and how techniques that were first perfected centuries ago to code landholdings as capital are being used today to code stocks, bonds, ideas, and even expectations--assets that exist only in law. A powerful new way of thinking about one of the most pernicious problems of our time, *The Code of Capital* explores the different ways that debt, complex financial products, and other assets are coded to give financial advantage to their holders. This provocative book paints a troubling portrait of the pervasive global nature of the code, the people who shape it, and the governments that enforce it."--Provided by publisher.

On February 25, 1946, African Americans in Columbia, Tennessee, averted the lynching of James Stephenson, a nineteen-year-old, black Navy veteran accused of attacking a white radio repairman at a local department store. That night, after Stephenson was safely out of town, four of Columbia's police officers were shot and wounded when they tried to enter the town's black business district. The next morning, the Tennessee Highway Patrol invaded the district, wrecking establishments and beating men as they arrested them. By day's end, more than one hundred African Americans had been jailed. Two days later, highway patrolmen killed two of the arrestees while they were awaiting release from jail. Drawing on oral interviews and a rich

array of written sources, Gail Williams O'Brien tells the dramatic story of the Columbia "race riot," the national attention it drew, and its surprising legal aftermath. In the process, she illuminates the effects of World War II on race relations and the criminal justice system in the United States. O'Brien argues that the Columbia events are emblematic of a nationwide shift during the 1940s from mob violence against African Americans to increased confrontations between blacks and the police and courts. As such, they reveal the history behind such contemporary conflicts as the Rodney King and O. J. Simpson cases.

In this riveting, unputdownable legal thriller, a partner at a prominent law firm is forced to choose between his enviable lifestyle and doing the right thing. Former college football star Scott Fenney has worked his way to the top of the heap at the Dallas firm of Ford Stevens. But when Clark McCall, wayward son of a Texas politician, gets himself murdered after a night of booze, drugs, and rough sex, Scott is assigned to defend the prime suspect, a heroine-addicted hooker named Shawanda Jones. The powers that be want her convicted—and Scott's future at the firm may depend on it. But unfortunately for Scott, Shwanada claims she's innocent, and he believes her.

The murder of a police recruit pins a black LAPD detective in a deadly web where race, corruption, violence, and cover-ups intersect in this relevant, razor-sharp novel of suspense. Black rookie cop Trevor "Finn" Finnegan aspires to become a top-ranking officer in the Los Angeles Police Department and fix a broken

department. A fast-track promotion to detective in the coveted Robbery-Homicide Division puts him closer to achieving his goal. Four years later, calls for police accountability rule the headlines. The city is teeming with protests for racial justice. When the body of a murdered black academy recruit is found in the Angeles National Forest, Finn is tasked to investigate. As pressure mounts to solve the crime and avoid a PR nightmare, Finn scours the underbelly of a volatile city where power, violence, and race intersect. But it's Finn's past experience as a beat cop that may hold the key to solving the recruit's murder. The price? The end of Finn's career...or his life.

Biography of Ernie Goodman, a Detroit lawyer and political activist who played a key role in social justice cases.

Building on the backdrop of his involvement in three important civil-rights cases, author A. Dwight Pettit narrates his personal story from the 1940s to the present in *Under Color of Law*. A successful civil-rights, constitutional, and criminal lawyer, Pettit focuses on the meaning of these cases for himself, his family, and the nation. As a direct legal descendent and beneficiary of *Brown v. Board of Education*, Pettit shares its relevance to his education and to his career as a civil-rights lawyer. His memoir details a host of milestones, including an early childhood in the black community and a sudden transition into a tense, all-white world at Aberdeen High School where he was admitted by order of the U.S. District Court. He recalls his time at Howard University as well as the major litigation and representation in which

he was involved as a lawyer, focusing in particular on his father's case which involved the treatment, torment and retaliation his father experienced at his job for bringing his son's desegregation lawsuit to trial. Attorney Pettit's memoir also traces his involvement in politics, especially his intimate role in the Jimmy Carter 1976 presidential campaign and the Carter administration. Providing insight into past and current civil-rights issues, Under Color of Law underscores the Pettit family's pursuit of justice in the context of the drive for equal rights for all. "One of the most emotional, fascinating books I have read. ... From start to finish, this book will have you question law as we know it and ask, in terms of racism and prejudice in America, 'Has anything really changed?'" -"Zinah" Mary Brown, CEO, Elocution Productions

The Color of Law A Forgotten History of How Our Government Segregated America

A New York Times Book Review Editors' Choice Selection A "volume of lasting significance" that illuminates how the clash between sex and religion has defined our nation's history (Lee C. Bollinger, president, Columbia University). Lauded for "bringing a bracing and much-needed dose of reality about the Founders' views of sexuality" (New York Review of Books), Geoffrey R. Stone's *Sex and the Constitution* traces the evolution of legal and moral codes that have legislated sexual behavior from America's earliest days to today's fractious political climate. This "fascinating and maddening" (Pittsburgh Post-Gazette) narrative shows how agitators, moralists, and, especially, the justices of

the Supreme Court have navigated issues as divisive as abortion, homosexuality, pornography, and contraception. Overturning a raft of contemporary shibboleths, Stone reveals that at the time the Constitution was adopted there were no laws against obscenity or abortion before the midpoint of pregnancy. A pageant of historical characters, including Voltaire, Thomas Jefferson, Anthony Comstock, Margaret Sanger, and Justice Anthony Kennedy, enliven this “commanding synthesis of scholarship” (Publishers Weekly) that dramatically reveals how our laws about sex, religion, and morality reflect the cultural schisms that have cleaved our nation from its founding. Local governments use their control over land use to generate race and class segregation, benefitting white property owners.
