From Nebula Award–winning author Jack McDevitt comes the eighth installment of the Alex Benedict series featuring Gabe triumphantly reuniting with Alex and Chase to retrieve a possible alien artifact—which may lead them to solve the greatest archaeological mystery of their careers. After being lost in space for eleven years, Gabe has returned, and is trying to find a new life for himself after being presumed dead—just as Alex and Chase are relearning how to live and work with him. But when a seemingly alien artifact goes missing from Gabe's old collection, a mystery is uncovered concerning its origins and it grants everyone an opportunity to dive into solving it as a team, once again. When a lead on the artifact is tied to a dead pilot's sole unrecorded trip, another clue leads to one of the greatest mysteries of the age: the infamous disappearance of a team of scientists aboard a space station orbiting a black hole—the Amelia Earhart of their time. With any luck, Alex, Chase, and Gabe may be on the trail of the greatest archaeological discovery of their careers. Nebula Award winner Jack McDevitt, who Stephen King has called “the logical heir to Isaac Asimov and Arthur C. Clarke,” has created another terrific science fiction mystery in his beloved Alex Benedict series.

I can't help but wonder what it would be like if Jax could love me. I know that I'm imagining things at night when he asks me to stay with him in his bed. I feel him watch me. But what if I wasn't imagining it, what would that mean?

Perhaps the most explosive and troublesome phenomenon at the nexus of race and crime is the racial hoax - a contemporary version of The Boy Who Cried Wolf. Examining both White-on-Black hoaxes such as Susan Smith's and Charles Stuart's claims that Black men were responsible for crimes they themselves committed, and Black-on-White hoaxes such as the Tawana Brawley episode, Russell illustrates the formidable and lasting damage that occurs when racial stereotypes are manipulated and exploited for personal advantage. She shows us how such hoaxes have disastrous consequences and compellingly argues for harsher punishment for offenders.

Sailing toward dawn, and I was perched atop the crow's nest, being the ship's eyes. We were two nights out of Sydney, and there'd been no weather to speak of so far. I was keeping watch on a dark stack of nimbus clouds off to the northwest, but we were leaving it far behind, and it looked to be smooth going all the way back to Lionsgate City. Like riding a cloud. . . . Matt Cruse is a cabin boy on the Aurora, a huge airship that sails hundreds of feet above the ocean, ferrying wealthy passengers from city to city. It is the life Matt's always wanted; convinced he's lighter than air, he imagines himself as buoyant as the hydrium gas that powers his ship. One night he meets a dying balloonist who speaks of beautiful creatures drifting through the skies. It is only after Matt meets the balloonist's granddaughter that he realizes that the man's ravings may, in fact, have been true, and that the creatures are completely real and utterly mysterious. In a swashbuckling adventure reminiscent of Jules Verne and Robert Louis Stevenson, Kenneth Opiel, author of the best-selling Silverwing trilogy, creates an imagined world in which the air is populated by transcontinental voyagers, pirates, and beings never before dreamed of by the humans who sail the

skies.

But in a breathtaking twist, everything changes: this world is not what you thought it was, and Richard Aldana is certainly not who he claimed. Winner of the Labriola Center American Indian National Book Award. One of the American West's bloodiest—and least-known—massacres is searingly re-created in this generation-spanning history of native-white intermarriage. At dawn on January 23, 1870, four hundred men of the Second U.S. Cavalry attacked and butchered a Piegan camp near the Marias River in Montana in one of the worst slaughters of Indians by American military forces in U.S. history. Coming to avenge the murder of their father—a former fur-trader named Malcolm Clarke who had been killed four months earlier by their Piegan mother's cousin—Clarke's own two sons joined the cavalry in a slaughter of many of their own relatives. In this groundbreaking work of American history, Andrew R. Graybill places the Marias Massacre within a larger, three-generation saga of the Clarke family, particularly illuminating the complex history of native-white intermarriage in the American Northwest.
