A biography of Michelle Obama, the first African American First Lady of the United States.

"Michelle Obama is unlike any other first lady in American history. While many books have looked at Michelle Obama from a fashion perspective, no book has fully explored what Michelle Obama means to our culture"--

"An engaging, beautifully synthesized page-turner" (Slate). The #1 New York Times bestseller and Time #1 Nonfiction Book of the Year: Hillary Rodham Clinton's most personal memoir yet, about the 2016 presidential election. In this "candid and blackly funny" (The New York Times) memoir, Hillary Rodham Clinton reveals what she was thinking and feeling during one of the most controversial and unpredictable presidential elections in history. She takes us inside the intense personal experience of becoming the first woman nominated for president by a major party in an election marked by rage, sexism, exhilarating highs and infuriating lows, stranger-than-fiction twists, Russian interference, and an opponent who broke all the rules. "At her most emotionally raw" (People), Hillary describes what it was like to run against Donald Trump, the mistakes she made, how she has coped with a shocking and devastating loss, and how she found the strength to pick herself back up afterward. She tells readers what it took to get back on her feet—the rituals, relationships, and reading that got her through, and what the experience has taught her about life. In this "feminist manifesto" (The New York Times), she speaks to the challenges of being a strong woman in the public eye, the criticism over her voice, age, and appearance, and the double standard confronting women in politics. Offering a "bracing... guide to our political arena" (The Washington Post), *What Happened* lays out how the 2016 election was marked by an unprecedented assault on our democracy by a foreign adversary. By analyzing the evidence and connecting the dots, Hillary shows just how dangerous the forces are that shaped the outcome, and why Americans need to understand them to protect our values and our democracy in the future. The election of 2016 was unprecedented and historic. *What Happened* is the story of that campaign, now with a new epilogue showing how Hillary grappled with many of her worst fears coming true in the Trump Era, while finding new hope in a surge of civic activism, women running for office, and young people marching in the streets.

"The FLOTUS Effect" emphasizes the import of agency on the part of Michelle Obama in relation to her politics as evidenced in her positionality and presence as the first African American woman to serve as First Lady of the United States of America. Her occupation of a previously white space and place tended to frame her as an enigma in the American mind and media. Contributors reflect on Mrs. Obama's eight years in her ceremonial position, and the ways she chose to uniquely embody her role. Hence, the result is a volume that speculates upon her evolving legacy, and the likely "effects" of what it meant to be the first African-American woman to serve in the ceremonial, yet powerful, role of FLOTUS.
