Providing an original look at twentieth-century service occupations, Nona Y. Glazer offers an innovative interpretation of how managers reduce labor costs by shifting labor for paid women workers to women as family members. She critically examines the past and present practices of retailing and health service occupations as a way to better understand the deskilling, speed-ups, and job consolidation of nurses, salesclerks, and cashiers. Glazer calls the shifting of tasks from paid to unpaid labor the work transfer, one of the many mechanisms that managers used to change the labor process in service jobs. She maintains that these shifts in labor costs increase profit margins in a capitalistic economy that demands such increases. Drawing on social history, economics, interviews with health service workers, union newsletter accounts, and advertisements in mass market magazines and retail trade journals, this book affords new insights into how the hidden work of women is structured by changes in paid labor. Nona Y. Glazer is Professor of Sociology and Women's Studies at Portland State University and the editor of *Woman in a Man-Made World* and *New Family/Old Family*.

The examples contain all the old standards such as the birthday problem and Monty Hall, but also include a number of applications not found in other books, from areas as broad ranging as genetics, sports, finance, and inventory management.

Matthew Acciaccatura of Teaneck, New Jersey, begins his freshman year at NYU in the fall of 1995 with one goal in mind: to become cool. A former high school outcast, used to lumbering the hallways alone in oversize turtle-necks, Matt seems an unlikely candidate for such a transformation. Yet by dint of effort he lands the coveted position of promoter at one of the hottest clubs in New York in the heyday of rave music and Ecstasy. However, as "Magic" Matt rises to fame, portents of tragedy begin to appear, literally in the margins of the story. Footnotes from one Dr. Hans Mannheim, an imprisoned German academic obsessed with Matt's dangerous trajectory, suggest that Matt is not as in control of his destiny as he might appear.... A gorgeously written archetypal tale of self-discovery (and self-deception) and a love letter to the enduring possibilities of New York City, *The Answer Is Always Yes* will keep readers guessing until its explosive climax.
